StarTalk Young Readers Edition

Synopsis

Now abridged for YA audiences, this beautifully illustrated companion to celebrated scientist Neil deGrasse Tyson's popular podcast and National Geographic Channel TV show is an eye-opening journey for anyone curious about the complexities of our universe. For decades, beloved astrophysicist Neil deGrasse Tyson has interpreted science with a combination of brainpower and charm that resonates with fans everywhere. In 2009, he founded StarTalk, the wildly popular podcast that became an Emmy-nominated talk show on the National Geographic Channel in 2015. Tyson's pioneering book takes the greatest hits from the airwaves to the page in one smart, richly illustrated compendium for young adult readers. Featuring vivid photography, thought-provoking sidebars, enlightening facts, and fun quotes from science and entertainment luminaries like Bill Nye and Josh Groban, StarTalk reimagines science's most challenging topics--from how the brain works to the physics of comic book superheroes--in a relatable, humorous way that will attract curious young readers.

Customer Reviews

NEIL DEGRASSE TYSON earned his B.A. in physics from Harvard University and his Ph.D. in astrophysics from Columbia University. His professional research interests are broad and include star formation, exploding stars, dwarf galaxies, and the structures of our Milky Way. Tyson was appointed by President Bush in 2001 and 2004 to serve on committees studying the Future of the U.S. Aerospace Industry (published in 2002) and the Implementation of the United States Space Exploration Policy. He has also served on the Advisory Council for NASA. He is a monthly essayist

for Natural History magazine and has published nine books, including the best-selling *Death by Black Hole: And Other Cosmic Quandaries*. He also is the first occupant of the Fredrick P. Rose Directorship of the Hayden Planetarium. CHARLES LIU is an astrophysics professor at the City University of New York's College of Staten Island, and an associate with the Hayden Planetarium and Department of Astrophysics at the American Museum of Natural History in New York. He earned degrees from Harvard and the University of Arizona, and held postdoctoral positions at Kitt Peak National Observatory and Columbia University. Together with co-authors Robert Irion and Neil Tyson, he received the 2001 American Institute of Physics Science Writing Award for his book *One Universe: At Home in the Cosmos*. More recently, he is the author of *The Handy Astronomy Answer Book*, now in its third edition. JEFFREY LEE SIMONS is the social media director of StarTalk Radio. He is the author of *Spirit in Realtime*, co-author of the cause-related marketing handbook *Making Money While Making a Difference* with Dr. Richard Steckel, and the author of two works with artist Viktor Koen: *Lexicon: Words and Images of Strange* and *Toyphabet*. He has a B.A. in literature from Georgetown University. Residence: New Jersey
