Elwyn Tate does it again! "My Allosaur Has Lost His Roar" is another in his delightful "My Dinosaur" series of books that children and adults, alike, love. The clever rhymes are never forced. They flow smoothly and are easy to read aloud. The young boy, who Elwyn Tate features in each of his dinosaur books, has another dinosaur with a problem. Turning to an adult the doctor for assistance proves futile. The doctor hides behind his nurse. Once again telling the reader "My Allosaur Has Lost His Roar", the boy analyzes the reasons for the loss and works to solve the problem. Humor abounds on the pages of this story and you will laugh aloud at the story that ends with yet another large problem involving the

boy's brontosaurus. Colorful, cartoon-like illustrations capture the reader and/or listener's attention and elevate his stories. These illustrations have dimension and depth; they have a level of complexity and sophistication often missing in juvenile picture books. My grandchildren both love Elwyn Tate's dinosaur books and so do I. I hope that once he completes the series, all the "My Dinosaur" stories will be compiled into one hardcover book. These stories have the making of classic children's literature!

We LOVE this book! I read it to my 4 year old and 5 year old at least 3 times every day (along with the Elwyn Tate's other two dinosaur books). While we really enjoy the other dinosaur books, 'My Allosaur ...' is our favourite. These books are fantastic for developing pre-reading skills. They contain the perfect concoction of rhyming, rhythm, silliness, funnyness, action words that children can act out (YAY for getting kids to interact with books and go beyond being passive listeners!), and new vocabulary. The pictures give great 'clues' to help children recall the story and 'read' it themselves (another important pre-reading skill). For example, the page where the Allosaur is feeling blue actually has a blue background. Absolutely brilliant job, Elwyn Tate. We are eagerly waiting for your next book ...

This sequel is GREAT. The rhyme is awesome. Started these with T Rex when my grand daughter was 5. She is 8 and loves them. Now she is reading them to her cousin. Our one year old grand daughter.

My grandsons, ages 3 and 6, loves this series of books. We couldn't wait to purchase this. We have read it at least once daily, usually after reading the other two books in this series first. Mr. Tate is not only a great author, he illustrates his books so well. Don't hesitate to buy these three books. Any child that loves dinosaurs, rhyming stories, and/or colorful, fun illustrated stories, will loves these books! Imagine if that wasn't enough, they are ONLY 99¢ each!!!!

It was a cute book. My two year old enjoyed the rhymes and the pictures. We spent the following 20 minutes roar-ing. Haha

I love reading this book to my little boy! This author does a great job!

My son is 2-1/2 and didn't fidget once, and immediately asked me to read it again. I'll look for more from this author.

Cute story
