Plant And Animal Alphabet Coloring Book (Dover Coloring Books)

Synopsis

Where can you find an asparagus, ant, albatross, aloe, anteater, anemone, amaryllis, artichoke, archer fish, angel fish, apple, addax, aster, acorn, abalone, alligator, avocado, armadillo, auk, and apricot – all in one place? In the first of the 26 decorative plates in this coloring book! Leslie Tillett, noted designer and craft author, has created 26 plates (one for each letter of the alphabet) that are all handsome compositions of flora and fauna whose names begin with the letter indicated in the plate. These designs exhibit an abundance of creativity and style, and they will delight adults as well as children. Keys to the plates at the end of the volume identify all the plants and animals illustrated.

Book Information

Series: Dover Coloring Books

Paperback: 32 pages

Publisher: Dover Publications (December 1, 1979)

Best Sellers Rank: #115,447 in Books (See Top 100 in Books) #47 in [Books > Children's Books > Education & Reference > Science Studies > Nature > Flowers & Plants](#) #1938 in [Books > Children's Books > Science, Nature & How It Works](#) #2216 in [Books > Children's Books > Activities, Crafts & Games > Activity Books](#)

Age Range: 3 - 11 years

Grade Level: Preschool - 5

Customer Reviews

I've only just begun coloring these sheets but have been enjoying them very much. There is one page for each letter of the alphabet. Each letter of the alphabet has small pictures of animals and plants inside it that go along with that letter. In the back is a key to what animals are used in each drawing. I used this as a tool to find actual pictures of the animals and attempt to color them in a similar manner. It can also be a learning tool if you are working with a young person. One disadvantage to this book is that the drawings are on both sides of the page so if you want to color

and frame you must photocopy first. You do get a lot of pictures fairly inexpensively, since there are pictures within the picture, so a pretty good buy.

This coloring book keeps my kids coming back - even to the pages they have already colored - to try to figure the names of all the animals (and plants) on each page. I especially like that there are plants and animals that my younger children (5 & 7) can name, but also animals that challenge my older children (11, 13, & 14) to figure some out. Page "X" was a very difficult for all of us, but fortunately the author also includes a key and listing in the back of the book of the animals that appear on each page. *Plant and Animal Alphabet Coloring Book (Dover Coloring Books)* I don't typically like coloring books - but this one is SO much more!

I had this book years ago in my classroom and students and staff loved it. I just bought 2 copies to give as gifts. I think they'll be great stress relievers. The letters are great for names and initials and would look great matted and framed.

I copied the pages onto card stock and will eventually mat and frame for my 2 yr old granddaughter's bedroom. I am learning the plants and animals as I color; thank you for the key at the back of the book! I'm now on F.

I have had the fruit and vegetable 1 for many years. This is a wonderful addition to my collection of Leslie Tillet coloring books.

Be aware that these are not single sided. If using for gifts, you really only have half the alphabet.

As an Art Teacher, I was looking for something challenging. I found the "Floral Alphabet" coloring book; I thought it was very detailed & fun. When that was completed, I needed another book; the "Plant and Animal" coloring book is even better than the "Floral" one! I will search "Dover" when this book is finished.

love this book, glad I got it, very entertaining with 30 different color books it keeps this 76 yr. out of too much trouble.
