Farrow & Ball Paint pioneers John Farrow and Richard Ball founded their company in 1946. They met while working at a local clay pit and later went on to build their first factory in Dorset, southern England, where the company is still based. Farrow & Ball is now one of the world's leading home decorating brands, manufacturing decorative paint and wallpaper that transform homes around the globe. Farrow & Ball paint is distinguished for its depth of color and unique finish developed through the use of high levels of pigment, rich resin binders, and ingredients with a high refractory nature. In addition, its complementary wallpaper products are handcrafted using Farrow & Ball paint with traditional block and trough printing methods, creating a distinctive tactile texture.

I received my book yesterday. I LOVE it! I thought it would be mostly pretty pictures like the other Farrow and Ball books but this one is actually very instructional. They have a list of which white goes with each color, using neutrals and different ways to get different affects, like by painting woodwork and trim the same color as your walls. I highly recommend this book for the beginner or seasoned designer.

I bought this book as a gift for my mom (she has a lot of good ideas but struggles with confidently decorating her home and picking paint colors). As expected, the book has tons of great pictures. It seems to be providing just the info my mom needed. It basically walks the reader through a simple design strategy. Talks about architecture, how light effects color, how to figure out what your own tastes and styles are and how to apply them effectively.

beautiful book, lots of great ideas.

An interesting book with great ideas regarding theory and tips for practice

Love this book. Good read for me as a newbie.

Gorgeous book with useful tips & photos.

Not what I anticipated, but color beautiful

I haven't fully dove into this book but so far it seems like a very thoughtful guide to color and use of depth.
