One True Mate 5: Shifter's Rogue

Synopsis

Mac knows Rogue is his from the moment she holds him hostage, but she'll never let him claim her...If Mac ran the world, everything would be better. Everyone would say what they felt, mean what they said, and never, ever get offended. At least that's what he thought his own personal utopia would look like, until he met Rogue. Rogue's life was just fine, thank you very much. An expert in her chosen field of danger and lies, she was well on her way to retiring by 30, as long as she could keep her curious mental slide under control. Until that hot-as-sin cop showed up, turning her life upside down, bringing her everything she'd always-and never-wanted. 99,621 words. Standalone, but you will enjoy it more if you start with One True Mate 1.

This is book 5 in the series. Please read them in order so you know the characters and can follow the prophecy. There are cop shifters trying to find their one true mates, whom are 1/2 angels and fighting the evil Khain. Love, action, and laughs. Overview. Mac has had a hard time connecting to the other wolf shifter's. The only one he does seem to work well with is the odd man out their bear

shifter Bruin. The create a bearomance instead of a bromance. But when Bruin (sees the future) tells Mac he will meet his mate at the rut but not in a normal way, Mac tries his best to find her before that happens. But even more, Mac soon find nods out that they have crossed paths several times in life. But Rouge doesn't want to give in to him. She has had to fight her way through life since she was 5. No way was she going to let a man have her, make her a wife, even worse make her have kids or pups. So the two have to fight it out. That is until Khain makes his presence in the world again.

I think this might be my favorite book of the series! Mac and Bruin are hilarious together and adding Rouge to the mix adds nothing but greatness to the mix!

I enjoyed reading each of these books. Each shifter with his own personality and selfless attributes. Mac was a complete badass and very cynical. Would loved to learned more about him as a kid. I love the fact that the bearen Bruin is "befriend". It took awhile for Rouge to come around and hopefully she'll learn to control that mouth around her sisters and their mates. I can't wait to see who Bruins will be mated to, if that's in his future. Would be nice to see some interracial mating.

Every book is a must read... I do recommend you start with the first book although it isn't necessary. I do suggest that when you start reading you have plenty of time planned where you can read right through the fifth book! I couldn't wait to read the book and couldn't wait to get to the next installment so I am seriously looking forward to the 6th story about Bruin & his Promised One! Extremely well-developed characters and story line that has been throughout each of the books! Keep them coming!

What a convergence between two like minds. Both stubborn, wise cracking, smart and deadly. One knows what is happening the other is working from snippets of information. Finally one realizes there is something bigger than her free will working and if she gives she will get everything she didn't know she wanted or needed. The big story pieces are falling into place and the stage is set for the final battle. Great read. I am looking forward to the next book.

Lisa is a genius!!! I am forever fascinated by the twist of her creative mind. Rouge was a handful and at times I wished better for Mac. But Ms Ladew makes it work. If memory serves me correct we all thought Mac was a jerk in OTM 1. So it is only fitting that his OTM be equally as vexing. Thanks

Lisa for allowing us to join you on this journey! Can't wait for Bruin's story. I just want to hug him and cuddle him for days!!

In this book we get to know more about Mac. In the other books we are that the others don't think very highly of him and he's done what if an ass. But this book shows he's more, much more. I absolutely loved this book and it was so fun to read! I laughed and yes I cried. If you have read any of the other OTM books, you have to read this one. It's me favorite so far and it won't disappoint you.

I loved this book. To date it is my favorite of the series, and you said there will be 13. I can't wait for them to be written. This book has so many cliff hangers in it, every time I turn around I'm rooting for Mac or Rogue. I was so happy when they finally got together only for her to disappear. As a reader I get deeply involved with the characters in most books I read, and Lisa is a writer that makes it very easy to relate to all of her characters.
