## Synopsis

LIMITED TIME BONUS INCLUDED: FREE Ebook and Report Reveals How to Improve Your Marriage Today. Learn How To Save And Rebuild Your Connection, Trust, Communication And Intimacy This book has actionable steps and strategies on how to save your marriage and build trust, communication and intimacy. “And they lived happily ever after” That sounds like something out of a fairytale but every couple wishes for happily ever after when they are tying the knot (except if one or both of them are serious pessimists or sadists). Sadly however, very few couples get to experience this sweet, fairytale kind of marriage. In fact, divorce rates are at an all time high with fifty percent of marriages consummated resulting in divorce or separations. Don't let anyone fool you; marriage is tough work, and it takes a lot of determination and willpower to sustain it. Imagine having to live with, and deal with the same person for ten years, fifteen years, thirty years or more. Along the line, you might start to feel more like siblings rather than lovers. Your problems may become as simple as a loss of spark in the relationship where you were once madly in love and suddenly do not feel as crazy in love as you used to be. Then it spirals into other relationship problems like lack of intimacy, lack of connection and lack of trust. If left unchecked, the couple drifts far away from each other and the relationship is damaged and before you know it, you are headed for divorce. The good news is that your marriage doesn't have to feel like a prison sentence. You can enjoy your marriage. This book will help you do just that by looking at how to bring back the spark, fun, trust and intimacy back into your marriage. In This Book You'll Learn... The Cold Hard Truth about Marriage How To Improve Communication How To Rebuild Connection How To Rebuild Trust How To Rebuild Intimacy And much more! Download Now to Learn how to Save And Rebuild Your Connection, Trust, Communication And Intimacy.. and get a FREE BONUS eBook and report on how to start improving your marriage today. ## Customer Reviews

This book caught my attention while I was looking for something to read the other day. The book is about the reality of marriage and how you can make the marriage stronger. When my parents got a divorce, I felt that all marriages fall apart no matter how long you have been together. My parents were childhood sweethearts, but their marriage suddenly fell apart. When I read the book, I have realized why their marriage fell apart. They become distant with each other because they have been busy with their careers. They did not have time to talk or even eat dinner together. When they argue, they are always the winners of it. Through this book, I have learned that communication and time for each other are the building blocks of marriage aside from the love. Thumbs up to the author for writing this valuable book!

My friend referred me to this book after she read it. We used to always get together for coffee and complain about our husbands. lol. But after she read this book she said she couldn't talk about her husband like that anymore and that things have been a lot better. I read it and right away in the first sentence I felt it was pretty harsh, but I think I needed to hear that to realize I should be working on my marriage rather than ignoring the issues. It gave me a lot to think about now it will be putting it into practice. I think I'll have to get the next book they previewed about self discipline. Lol

I wish I had looked inside and noticed the "book" is only 22 pages long. There is an extra 6 pages promoting his other books. This is more of a booklet and written as such. Jenner is not educated as

a counselor or psychologist, The book closely resembles a term paper on marriage. I really didn't learn anything new. The positive things- Jenner does highlight the important aspects of rebuilding a marriage, and he does try to condense it. It is definitely written in plain, coach-like language. I think it would be fair to the consumer Peter, if you stated in the description that it is only 22 pages long. The price on is close to being fair, but I would say it is still about \$2.00 over priced.

It goes something like this... wives want love while husbands want respect. When the wife does not show respect, the husband tends to be unloving, which causes the wife to show less respect. By giving unconditional love and respect to one another all problems are solved. Easier said than done. But this author has done a wonderful job of putting things into perspective. To all married couples and "about to be married" couples - this book is for you!

Awesome! This book contains excellent insights into marriage conflicts, tips on how to handle and resolve marriage issues and avoid the painful consequences when conflict resolution is not handled properly. It points out relevant issues as to why marriage conflicts arise. It highlights the importance of understanding and accepting each other's differences, learn how to listen, respect and communicate properly. Worth recommending!

I am very glad to have this book from an exchange review because we just got married and just starting a new family. We have been through many challenges and trials as we move forward as a husband and wife specially that we are now a father and a mother. This book helps me to realize that we must not stop of doing such things we had done before we got married. I like this book and its advises and suggestions, its really applicable and helpful.

In every relationship, communication and understanding really a the main thing in maintaining and keeping it strong as time goes by. I am not married yet, but I just got this one out of curiosity and I want have something to read about marriage and how to make it last. The contents of the book are informative, detailed and would make you realize every thing that it says. This book would be a great help especially for those who are already committed to their partners and already had their vows.

I am not yet married but planning to, and when you see yourself attached it seems all the disadvantages are what your eyes see, like the quarrels, the decisions and all. Saw this book and

purchased it and well, I have learned a lot. Its tips, advises and inputs are all great that I am sure will be a big help not only to married couples but to couples as general. Worthy book.
