The Fourth Way: An Arrangement By Subject Of Verbatim Extracts From The Records Of Ouspensky's Meetings In London And New York, 1921-46

Synopsis

The *Fourth Way* is one of the most comprehensive texts published of the ideas taught by the late P.D. Ouspensky. Consisting of verbatim records of his oral teaching from 1921 to 1946, it gives a lucid explanation of the practical side of G. I. Gurdjieff's teachings, which Gurdjieff presented in the form of raw materials, Ouspensky's specific task having been to put them together as a systematic whole. Just as *Tertium Organum* deals with a new mode of thinking, so *The Fourth Way* is concerned with a new way of living. It shows a way of inner development to be followed under the ordinary conditions of life -- as distinct from the three traditional ways that call for retirement from the world: those of the fakir, the monk, and the yogi. *The Fourth Way* is a guide for those who seek a true way of inner growth under conditions open to the men and women of today.

This book, that I have now read nine times, never fails to teach and to satisfy anyone questing for answers that lie behind the mundane. I can not possibly list the benefits from reading this book and even more so if the reader applies the lessons. It is for each and everyone to find on their own. I would urge anyone contemplating reading this book, to first read 'The Psychology of Man's Possible Evolution' by PD Ouspensky as it will give the reader the perfect foundation for then reading The Fourth Way.

A great book for those "In Search." (Many questions and answers to enlightenment possibilities.) "In Search of the Miraculous" is another fine Ouspensky book.

If you have not read any of P.D. Ouspensky's work, you are missing exposure to one of the great minds of the last few hundred years. He pulls you in, challenges you to see with eyes wide open. I have never read any of his work without coming away from the experience completely mesmerized.

everyone should read this book. It will change your thinking and make you grow in different ways you never thought of

A clear insight into the mind of Ouspensky. Excellent material for inner questioning.

Everything the other reviewers have said is true. The format is unacceptable, the page changes at

the end of every paragraph or even sooner, the diagrams are missing etc. Yet, the content is there. At a very good price too. If you are interested in the fourth way, the questions and answers from Ouspensky's lectures are really helpful. So I didn't really mind constantly having to change the page. I was happy to be able to have the book.

I have recommended this book to 5 people. Very intriguing and a great read! One of my favorites for this subject matter. Gives a lot of clarity to reality as it is, not as we see it.

This is a very good book. It does an excellent job detailing Gurdjieff's system of development. A must read for anyone interested in this system.
