Robin McGraw, #1 New York Times best-selling author, has been married to TV talk show host Dr.

Phil McGraw for over thirty years. His viewers have embraced Robin – whether she's discussing her experiences as a mother and wife or dealing with issues that women face in their lives.

I wouldn't recommend anyone waste their time or money on this. It's a ploy to get you to buy two books written by a writer that's obviously a novice on this subject matter.

The book is made to be used as a reference to the main book, which I don't own. The first book of What's Age Got to do with it, has to be purchased to use as a reference to this book. Wish I had known this and I would have purchased the main book first.

I chose this item because I'm aging and felt I needed some tips. Did not find much I didn't already know.

I received the order right away! It was great!

I admire Robin McGraw!

I really liked this book and I love Robin McGraw's insight into a lot of different things. This makeover guide is good at reviewing different makeup techniques. I got this book to replace the one I had that my dog chewed up.

Total waste of money. States the obvious and has pages and pages of lines to pad it out. You don't need it, trust me.

You really need to buy both books to reap the real benefits. I learned a lot. Some of it simple, some of it I went "duh". Robin's friendly easy going style is like a chat with a sister.
