# Police Administration

## Synopsis

Police Administration, Seventh Edition, examines police administration from four perspectives: a systems perspective; a traditional, structural perspective; a human behavioral perspective; and a strategic management perspective. The systems perspective emphasizes the links between units and organizations, the influence of external conditions on systems, and the importance of feedback for correcting and improving performance. The traditional perspective highlights administrative principles, management functions, and the importance of written guidelines. The behavioral perspective stresses the human element in organizations. The strategic management perspective focuses on finding the most effective ways of carrying out the organization's work and accomplishing its mission. The book begins with several basic considerations essential to understanding the unique features of police administration. These include the development and environment of police administration, the nature of police work, police goals and objectives, police organizational tasks, and the role of the police executive. These basic considerations serve as the foundation for more detailed exploration of modern police administration. Five case studies are included at the end of the book. This book is a valuable resource for students and practitioners interested in police administration. --This text refers to an out of print or unavailable edition of this title.

## Book Information

Paperback: 530 pages

Publisher: Routledge; 4 edition (January 1, 1998)

## Customer Reviews

Gary Cordner joined the Department of Criminal Justice at Kutztown University in 2008, after teaching for 21 years at Eastern Kentucky University, including five years as Dean of the College of

Justice & Safety. At ECU he also founded and directed the Regional Community Policing Institute and the International Justice & Safety Institute. Before ECU he worked as a police officer and police chief in Maryland and taught at Washington State University and the University of Baltimore. Gary is currently a Commissioner on the Commission on Accreditation for Law Enforcement Agencies.

This book was in excellent shape just as described

In all fairness, I have been a law enforcement administrator, manager, and supervisor for over twenty-one years. This text was required for a core BS/CJ degree course, I didn't find very much in the text I didn't already know. BUT it is well researched and well written. Filled with lots of "fluffy" information.

Even though this book is for a college class it looks extremely interesting!! The condition is as described and shipping was done quickly knowing that I had to have it for class!

IF YOU'RE IN THE FIELD OF LAW ENFORCEMENT THEN YOU WILL APPRECIATE WHAT THIS BOOK HAS TO OFFER. IT'S A MUST READ FOR ALL YOUR PROFESSIONAL LAW ENFORCEMENT WORKERS.

Excellent book!

Fair

Good book and it helped me pass my exam. It discusses police management practices noting several different organizations. The case studies at the end were a good review.

Great price, had to have it for promotion test.
