Customer Reviews

The book is the right size for my son to keep in his backpack. It is perfect for him and as a middle school student it functions as needed. Spine is bound well and the cuts on the book edges are crisp and straight. Overall a good book for a good price.-- How I rate --5 Stars: Works exactly as advertised, is a good value at the price point purchased, would buy again or recommend to a friend.4 Stars: Works exactly as advertised, fit/finish are what you'd expect when purchasing this type of product, might have a minor flaw.3 Stars: Generally works but it may not be a good value at the price point or might like to see changes / improvements.2 Stars: Barely works but can be made useful if you try.1 Star: Useless, does not perform its intended function whatsoever and is generally a waste of money, sending it back.Overall: I am giving this a five star rating based on my criteria

above. The book works perfectly. If you have any questions or comments both positive and negative, please feel free to ask in the comments. I will respond. If you found my review helpful also let me know. I received this product at a discount or free in exchange for my honest and unbiased review. I am disclosing this in accordance with the guidelines, concerning their review system. I am not affiliated with the seller and make no promises of a good evaluation while reviewing the product. I test thoroughly and do my best to present detailed reviews to other customers so they can make an informed decision.

I bought this for my boyfriend who loves to write poetry and music. He swore up and down he didn't need it, and now it's all worn on the binding and constantly at arms reach when he's writing. I use it quite a bit myself. Even though it's a "mini," we've never had an an issue finding what we need.

I bought two of these after reading other reviews and am glad I did. It's fat, but it holds a lot of information. The thesaurus is not in a separate section but is included in the dictionary section. If you need to find another word for example, "beacon", then you would look up "beacon" in the dictionary section and the thesaurus would be underneath the definition portion. I gave one each to my kids for school use and it's easy to fit into a backpack pocket.

Its so small you might as well use your phone to look up words you will probably see them better on your phone then in this tiny print. Better get the one thats 4 dollars more so you can read it.

A great little book for the student or writer.

good

Comes in handy perfect for school..not bulky and does not add extra weight to my already heavy bag.....easy to read.....I really like it :)

THIS DICTIONARY SLASH THESAURUS IS JUST WHAT I NEEDED. NICE COMPACT, AFFORDABLE, AND EASILY OBTAINABLE THROUGH . THE WORDS ARE JUST THE RIGHT SIZE, AND REALLY BASICLY A-TO-THE-POINT OXFORD MINI.
