Saving Faith

Synopsis

In the field of popular fiction David Baldacci is far ahead of the competition. Continuing his string of New York Times best sellers, Baldacci presents his most electrifying story to date—a novel of nonstop action, vividly etched characters, and an astounding vision of the inner sanctums of our government. Not far from Washington, D.C., in a wooded area of Northern Virginia, a small house at the end of a gravel road serves a secret purpose. With its sophisticated security apparatus and hidden miniaturized cameras, it is being used by the FBI to interview one of the most important witnesses the agency has ever had, a young woman with an incredible story to tell. But a few people know about the secret meeting. And for them, a violent drama is about to begin. One man—a local private investigator named Lee Adams—has come to the house on the orders of his client. Another man, a hired killer, stakes out the house on orders from his powerful paymasters. And the witness, Faith Lockhart, is coming to tell the FBI everything she knows about the powerful lobbyist with whom she has worked, a man who manipulates U.S. government policy and who, in the process, made some very dangerous enemies. Then, before Faith can tell her story, the hit man pulls the trigger and the wrong victim falls. Now Faith Lockhart is on the run—from the most dangerous people in America—with Lee Adams, a man she doesn't know, yet must trust. A relentless chase novel that unfolds as both the FBI and a killer search for Faith and Lee, this is also a searing and utterly suspenseful tale of power gone mad in Washington, and of one woman's desperate attempt to break out of a web of corruption and terror that reaches much further than even she can know. In the hands of master storyteller David Baldacci, *Saving Faith* elevates the thriller to a new level and poses stunning questions about the rules we live by, the rules we are governed by—and what happens when some people make rules of their own...

Book Information

Audible Audio Edition

Customer Reviews

Fun to test interesting story I enjoyed all of the elements characters were alive to me and I enjoyed the tide

Very interesting story with serious consequences. Corruption in the very highest levels of the government.

David Baldacci is one of the best authors of our generation.

A bit different from his other works AND very good read.

Love this book. I read all of Baldacci, he is a great author.

One new approach time after time, very suspenseful.

Good book, but not his best. Still, I enjoyed it.

Another good read by Baldacci. Slightly too much detail in some facets, but characters and story make for a page turner.
