The Ultimate Guide To Sea Glass: Finding, Collecting, Identifying, And Using The Ocean's Most Beautiful Stones

Synopsis

As the owner of one of the world's most elaborate sea glass collections, Mary Beth Beuke gets to talk about these prized ocean gems on a daily basis. Unfortunately, with each passing day, sea glass becomes more and more difficult to find, making the hunt more of a challenge to the seeker—especially one with limited experience in sea glass hunting. There are several reasons why the hunt is so important to the sea glass seeker. Some find their Zen moments in the solitude and beauty of the hunt. Some collect to add color to their life. The history, mystery, and discovery of sea glass are also strong forces that draw collectors to shorelines around the world, looking for these pieces of physically and chemically weathered frosted glass. Whatever your reason for wanting to learn about and start your own collection of sea glass, the window for doing so is closing as pieces are becoming more elusive due to a growth in sea glass popularity and a decrease in recent glass bottle production. In *The Ultimate Guide to Sea Glass*, Beuke provides information that will help first-time seekers start new collections and veteran hunters learn more about their current sets. Beuke shares her experiences in gathering her own collection via photographs of vibrant and rare pieces, as well.

Book Information

Hardcover: 272 pages

Customer Reviews

"The Ultimate Guide to Sea Glass is the only book on the topic that will be needed and comes from a lifetime collector who shares her twenty-some years of beachcombing to show how to understand, collect, identify and use sea glass. From understanding glass colors and possible origins to the

history of sea glass from history and modern collectors and how they are used, this blends a coffee-table presentation with full-page color art with a lovely, artistic discussion that will appeal to artists, nature buffs and collectors alike. The result is a highly recommended guide for any sea glass enthusiast." —Midwest Book Review

Mary Beth Beuke is the owner of West Coast Sea Glass and was the president of the North American Sea Glass Association from 2005 to 2010. Her sea glass art jewelry can be found in more than fifty galleries all over the world. Her story and collection have been featured on the Travel Channel and in National Geographic, Smithsonian, Coastal Living, Ocean Home, the Seattle Times, and more. She exhibits her collection at museums and libraries often and resides in Sequim, Washington.

GORGEOUS BOOK. Want to cut out and frame the beautiful photos! Nicely written - who knew there was a whole world out there of sea glass afficianados? Only problem is, my little collection is woefully dull compared to the rich finds of some avid collectors! Too bad "the window is closing" due to plastics replacing glass as stuff thrown in the water....

Wide range of areas to search, who knew!

I got this as a Mother's Day gift for my mom. We were going to the ocean for a week-long trip and she was really excited about finding some sea glass. This book was perfect. The pictures are beautiful and there is a lot of nice excerpts to read.

Love this sea glass book.....!!!!!!!

Great book - Great price! Perfect for the person who lives near the beach!

It was a gift for my daughter; she lives near Atlantic Ocean and collects sea glass. She said it will really come in handy.

A wealth of good material--well worth what I paid!

Excellent explanation of sea glass types, history and where it can be found. Beautiful pictures that

make a fabulous coffee table book.
