## **Customer Reviews**

I have the misfortune of having to stay in law school for an extra semester. However, I decided to make the best out of a bad situation. I'm taking the NY bar exam in February 2014. In the interim, I've done some light studying, including reading strategy books like this. Like the author of this book, I have a mediocre law school GPA. This book, however, has given me the confidence I need to pass the bar (whether I actually pass remains to be seen). I agreed with 90% of his tips. Some of them were ridiculous (drink 100 ounces of water a day, don't worry about memorizing the rules).

Most of his other tips, however, made sense. He emphasized practicing essays and MBE's over and over. On the MBE, go over the ones you got right and wrong. He also (correctly) said that bar prep companies teach you the rules but don't teach you how to articulate the rules (ie write essays). He suggested hiring a tutor for essays (if you can afford it. If not, keep rewriting good sample answers). An obvious tip he provides is that it's not the quantity of studying but the quality that matters. A quality 6 hour session is better than an 8 hour session when your mind is drifting or you're half asleep. Saidi said that even if you forgot the relevant rule, you can get some points for spotting the issue and doing a reasonable analysis. This book is not the end all, be all. You should still take Barbri or Themis. However, this book will enable you to study more efficiently.

I just quickly read this book as a little kick start for my bar prep. As a repeater, it was a great tool to get into a positive mind frame before I start studying and since I'm working full time it was nice to get some advice on ways to shortcut the standard bar prep schedules by skipping over passive study techniques. Dustin provided his email address for discount codes and general bar prep questions and he was quick to respond to my first request. With all the money we're spending on taking and studying for the bar, spend the extra \$10 to buy this book and you'll get some good advice, decent discount codes, and positive energy that is greatly needed, but lacking in other bar prep materials. You won't regret it!

This book was short and sweet. I read it during my Bar review and got through it so quickly that I didn't even feel guilty for taking time away from my studies to read it. I especially appreciated the portion about practicing essays. His method actually worked quite well for me. After a few practice sessions I was no longer afraid of the essays. I was a repeat bar taker and am now an attorney! My license comes in the mail soon. Good luck to all taking the Bar. You can do it!

I happened upon Mr. Saiidi's book and have been the better for it. In his text he lays out how, and more importantly why, everyone who believes they can will pass the bar exam will, in fact, pass it. I like how it was straightforward, honest and direct. As well, I like how he talked about many of the intangibles to success such as the 100 oz. of water rule, exercising and taking breaks. I really felt that he was writing a book to ensure a successful life not only during bar prep but after bar success as well. I highly recommend this book and his website!

This is a great book to read before you hunker down for intense study for the bar exam. All of the

advice is spot on and I enjoyed how he explored the need to focus on ones "mental state" before taking the exam, in terms of being positive and affirming. It really all boils down to strategy, practice, and belief in yourself. Good read, plus he offers discounts for some very reputable programs. Just FYI this is not a full blown how-to or a book of outlines, rather a guide on how to handle the tasks needed for success.

This book is a quick and easy read that will instantly motivate you to tackle the Bar exam. I highly recommend you read it prior to studying (and again if you become frustrated or skeptical along the way)! I found Dustin's exam study tips to be practical and easy to incorporate with any bar review course. Perhaps most importantly, Dustin's suggestions and tips to mentally prepare you for the challenge that is the bar exam, helped me tremendously.

This book is a powerful resource for anyone who is studying to pass the bar exam. Dustin provides practical tips with strategies to use for all phases of studying - from early planning phase through actual days of Bar Exam. In addition, there are links for podcasts to listen to while at the gym or on the go, mind and body techniques to keep your positive flow of energy and encouraging words of support each step of the way.

It is a good boost for your confidence. Many things are obvious but from my point of view, specially in dealing with the Bar exam, you need to hear it from somebody else and sometimes in different words. It is practical and easy to read. I keep it close to my books, and even though I have already read it completely, I liked certain paragraphs that I have specially marked to read more than once.
