Easy to cook fresh tasty meals

When I think of a rice cooker cookbook, I think of recipes that say "Add A, B, C, D, and E in the rice cooker, set it to the brown rice setting, and walk away." This book assumes you are a college dorm

room kid with no access to a proper kitchen and stove. It has you cooking as you would with pots and pans, but using only your rice cooker. A typical recipe says to add oil, turn on your rice cooker, and when it gets warm, fry some stuff in it. Why would I do that in my rice cooker?! Or else, add water, turn on your rice cooker, and when the water comes to a boil, add noodles and cook for 5 minutes. I have pots for this! This book was not at all what I was expecting. I wanted recipes where I just put stuff in my rice cooker, turn it on, and that's it. I do not want to stand over my rice cooker and slowly add ingredients. That's what my stove is for.
