30 Day GMAT Success, Edition 3: How I Scored 780 On The GMAT In 30 Days And How You Can Too!

Synopsis

"My score increased from a 690 to a 780!! Brandon Wu's strategy is one of efficient and effective studying... this book did wonders for me. " - Grete"...the best way to QUICKLY study and prepare for the exam so you can pass and get on with your life. " - Christy "I have gone from a Data Sufficiency zero to hero... the real gold is the strategies that are found in this book. " - Bob Y. Edition 3 of 30 Day GMAT Success is finally here! We took into account feedback from readers and professional reviewers to make 30 Day GMAT Success even better! Also includes advice and practice questions for the new Integrated Reasoning section. Brandon Wu's GMAT Success Story - as seen on the Graduate Schools Magazine front page feature "The Perfect Time to Take Your Graduate Test" "Cuts through the BS and is written in a way that is very accessible to the reader." - Chau "... eased my anxiety. I used the book as a guide and liked that it lays out the study plan, what to do, how to approach your strengths and weaknesses.." - Caroline "... really helped me to focus and discipline myself to keep studying... I found [it] to be a great supplement to the Official Guides and I would definitely recommend it to others." - JMNew! Added Features for Edition 3: - Added Integrated Reasoning section for the latest GMAT tests - Expanded Verbal and Math sections to include even more detailed advice! - More of 'Brandon's Tips' peppered throughout - personal advice that the author used himself on test day. - An easy-reference Math terminology section. - The Idiom cheat-sheet Brandon studied from. - Even more Verbal and Math practice questions to consolidate your understanding. Plus reference to similar types of questions on the Official Guide 13th edition for further studying. - More than 100 pages of new content compared to the 2nd edition and twice as much compared to the 1st edition - better and better every year! Struggling to find time to study for the GMAT? Brandon Wu's 30 Day GMAT Success might be exactly the right remedy for you. Devised out of desperation and an impending admissions deadline, Brandon developed a highly effective strategy that aimed to: (A) achieve a high score in (B) a limited amount of time! What he discovered was genius - a simple way to create a self-tailored study plan that enabled him to achieve an incredible score of 780. That put him in the top 1% of all GMAT test-takers! Eliminate the need to over-study everything and learn way too many strategies. Study smart: cut down your workload, focus on your weakest spots, and create a plan just for you! What you will not find here is a repetition of practice questions. Practice questions are incredibly valuable and necessary, and there are fantastic books such as The Official Guide for GMAT Review published by the Graduate

Management Admissions Council (GMAC). But how do you navigate the sea of information and seemingly endless questions? *30 Day GMAT Success* is the first and only book designed to supplement your current GMAT study. Laying out a 30 day customizable study plan, helps you to figure out your strengths and weaknesses, and guides you to supercharge your study. Supercharge your study today! "...the book is solid and would totally recommend it to anyone who's thinking of taking the GMAT." *File* Are you struggling to find time to study for the GMAT? Then Brandon Wu's *30 Day GMAT Success* is for you. Start today!

Customer Reviews

"30 Day GMAT Success is like having a private tutor with your for a tiny fraction of the cost. The scheduling is genius and will be totally motivational for anyone setting out to prep for the daunting exam. It breaks the test down into manageable chunks so that the test-taker can easily handle the tasks of prepping for all sections in a short month." - Jessica Brondo, Founder of The Edge in College Prep "...no matter if you are planning to study for one month or three, this is a book I'd recommend for the last 30 days before the test." - Woody

Introduction to the 3rd Edition It's hard to believe that it's been five years since I started working on the very first draft of *30 Day GMAT Success*. The small Starbucks tucked inside Meguro train station in Tokyo was my second home, where I spent many of my week nights typing away. It astonishes me where the book has been since that humble start; best selling spots on , numerous

educational magazines and news outlets, and the hands of one of the top business book publishers in the world. Most importantly, I've been amazed at the response I've received from students who have been able to achieve what they set out to do on the test and more, some far surpassing expectations. One student who emailed me from Germany scored 750 with only two weeks of preparation by adopting my original study plan. Two years after it was first published, we've gathered feedback from readers all around the world, and taken into account recent changes to the test to craft this latest edition.~ ^ Thanks to all the contributors and editors who helped us keep improving this book. And thank YOU(!) dear reader for your support and feedback that helps us to continue improving the book year after year.~ ^ Thanks again and best of luck on the test!~ ^ -
Brandon Wu

I decided to get this book after taking the GMAT the first time, I didn't study too much for the first test but I didn't do as well as I wanted to so I needed a plan and this book gives you a plan. After all was said and done I didn't score 780 on the GMAT but it got me a score good enough to get into a tough school that is highly nationally ranked. A quick note of caution though, this book helps you lay out a 30 day plan but you have to be at forcing yourself to putting in the work, if you are a person that needs to have someone pushing you then this book might not be the best. Also you are going to need other books for practice tests, I used a Kaplan and a Manhattan book for their in book tests as well as the online tests you get access to when you purchase those books. The first thing the book wants you to do is to take a practice test, grade it and find out what sections are your strengths and what are your weaknesses, so just a heads up. You need to carve out a month, no going out on the weekends, no Thursday or Friday nights, just a whole lot of studying. It does suck for a bit but its only a month and it will help you get into a great MBA program that your month of suffering will pay off for the rest of your life, so its kinda of worth it. Just stick with it and the second you get that great GMAT test score from the test center is a great feeling because you NEVER have to take that damn test again.

Although I still do not agree with the 30-day preparations, as I think it is too short, the hints are good and the any additional book is very welcome for recap and more practice. My time is pretty flexible, but on top of the 800 pages from the official manual, there are so many other good exercising books that are worth practicing, that even 3-4 hours a day cannot be enough for 30-day preparations. :)
Still, I liked the book and learned few things I didn't find in other books so far.

If anything, this book gives you a very good way to consolidate your studying and helps you to think of ways to study the best way that fits for you. You don't have to follow this thing word for word, but it's a great way to start to organize your own study form. It also gives a great breakdown of things included in each section of the exam, which is extremely beneficial.

I had less than 30 days to study and this book really helped me get my head straight and make a plan for how to attack my studying. Would definitely recommend it to anyone who needs guidance on how to tackle the GMAT.

Although I haven't taken the test yet, I have definitely been able to make my studies more focused. That was my biggest hurdle. I was getting overwhelmed by trying to go through all the materials I had collected in preparation for the GMAT. Things are really looking up!!!!

It is what you need to know how to nail the GMAT. I strongly recommend this book so that you can have a study guide considering organization and time.

An excellent organized book on how to prepare yourself for the GMAT. However, this book alone is NOT enough. You must also have another GMAT prep book to work with alongside.

Great tips, helpful organizing, and processing the important things as it relates to the test.
