We just came back from London. We rented an apartment for 11 days. We took a few good day trips from London. They were wonderful thanks to the guide. As everyone knows there is so much to see in the City and it can be grueling. It is so nice to leave the city. We recommend the National Express buses. They are economical, clean and have restrooms.

Very informative. Will be using this a lot next time I'm in London.

this book is for a 1, 2 or 3 day visit and is focused on that time table. If you are in a hurry, this will help you get the most from your time in London. For longer visits, try another book.

It always good to have a complete day trip pocket book available when veering a way from home base of London. includes many side trips with all the information that is needed for "how to" get to other cities for a day away from London

Haven't taken my trip yet, but sure have enjoyed reading this guidebook. So many ideas. Well organized and full of pictures. Problem will be narrowing my choices. We want to spend half of our time in London and then do three or four day trips. Can't wait!

Frommer's is always a great travel guide what ever country you get it for

I can't wait to put it to use when I head to London in June! It has a lot of information that looks like it will be very helpful with my first trip overseas!

I basically bought this book because I plan on taking a day trip to Cardiff while I'm visiting London, and hoped there would be a section describing the city, but it isn't even mentioned in the book, so it pretty much doesn't help me in my situation this time. If I can ever afford another trip to London (considering the last time I went was 30 years ago in college) it might prove useful.
