All my childhood favorites and so many great ones I had never heard before. I and my twin 2 year olds are loving the songs for preschool music and motion! I love that it has 4 CD's- get tired of one and just put in another. Booklet will be great when my kiddos are a bit older. All in all a fantastic purchase!!!

Great set of classic songs. Packaged in nice folder including activity pages for the kiddos

Sometimes I sing along all by myself in the car- no child needed!

it took along time to find this but worth the wait. it is an awesome 4pk. so glad i got it.

A good used-product value.

I had enjoyed the Wee Sing books these ladies put out. I was very happy to find the CD's. They were all I had hoped for and more, besides a good price. Thank you!

This is an absolutely wonderful tool for teaching ages 0-6 yrs the songs we all know and love as Christians.

In preparing music for childrens programs, this book/cd collection is a great way to get started. The book contains the music for many traditional childrens songs. It has guitar chords and melody notation for all songs. For songs in a difficult key for beginng guitarists, it has alternative chord combinations to make playing easier. I purchased the CD version of the package so I can listen to a particular song without having to search for it on the tape. One of the things that children really enjoy about this collection of songs is the hand motions/actions for many of the songs. This was a great collection for an amature guitarist like myself to use to prepare childrens music for a variety of programs.
