The Indelible Alison Bechdel: Confessions, Comix, And Miscellaneous Dykes To Watch Out For

Synopsis

Go behind the pen and into the psyche of dyke to watch out for Alison Bechdel--cartoon chronicler extraordinaire--as the inner workings of lesbiania's most quick-witted, longest-running social commentator are revealed.

Customer Reviews

Love it. Love the little insights we get on Bechdel and her work. Then again, I love all her work, so getting to see what's going on internally is just super awesome for me.

If you are not familiar with Alison Bechdel's work this is a great place to start! She's funny, smart and will help you catch up with DTWOF and politics from the 80's to now. Also, pick up "Fun Home" it's awesome!

This book is the next best thing. It includes her earliest drawings (as in, from age 3), comments on what was happening in her life at the time that certain strips were drawn, what her mother thinks of certain storylines and who she was actually writing about in some of the more intimate one-shots. Since Bechdel has stopped publishing calendars, there's a section that includes each one from 1990 to 1997. Also, there are stills from the "factory tour" screen saver, the results of an artist jam, a story timeline, and strips that were published elsewhere (for certain causes, specials for various magazines, and so on). If you've got all of the other previous DTWOF books, this won't make your collection complete (there's a strip for teenagers about how to deal with a friend coming out that I

just couldn't find in this book), but it will certainly help you get there. Warning: there is some overlap if you have all the books. This was a neat surprise to find at .com -- I had no idea that Bechdel was working on this compilation. Definetely add it to your collection!

Bechdel's prose here is as smart and funny as readers of the regular strip would expect. It starts as a memoir as she describes her beginnings and progression as a cartoonist, and includes lots of early drawings and strips. The bulk of the book is made up of stuff never seen in the DTWOF volumes: strips from her calendars, strips made for other magazines or special occasions, and autobiographical work. It's great stuff, always funny, and everyone with a sense of humor should buy it right away.

This is a wonderful book for fans of DTWOF with little cartoons from calanders and what not. However, it is not a part of the series, so people looking for additions to the narrative of the books will be disappointed or a bit frustrated. But aside from that, this is a book full of goodies, perfect to savor a little bit at a time.

Even as a white middle class hetero, I enjoy following on an ocssional basis the progress of Ms. Bechdel's cast of characters. It's rare to find a cartoonist who has so sucessfully kept a shtick going so long without becoming hopelessly stale (although perhaps it's a bit easier for a self-consciously running commentary on society and politics wherre the material is a little more dynamic than, say, the antics of Dennis the Menace or Little Jeffrey)....

Product perfect!
