The variety of missions involved in this Warhammer 40k expansion is outstanding. It adds much more flavor to the game and it really brings out all of the different specialties of the whole spectrum of warring races in the 41st millennium in style. This is accomplished with the plethora of missions in

the book, with at least 3 per faction. This is a must have for any battle hardened table top fanatic. I recommend this book over the alter of war book (which is 3 times more expensive) because mostly the missions presented in Alter of War are rehashed from Battle Missions. Overall, I highly recommend this expansion, its really fun.

A bit dated at this point in 7th edition Warhammer 40k but still viable. There are plenty of missions in here that could easily be adapted to a 7th edition mission by adding the classic 7th edition parameters. The missions are themed and fit very well the nature of the armies. The missions are fun and interesting enough that the book is definitely a worthwhile buy.
