Shaman Pathways - The Druid Shaman: Exploring The Celtic Otherworld

Synopsis

Covering the basics of Celtic shamanism, with reference to traditional lore and source materials through the lens of both ancient and modern Druidry and shamanic practice, *The Druid Shaman* is a well rounded guide, showing the seamless cross over between Druidry and shamanism in the Celtic tradition. It covers topics such as how to attain and work with guides and allies, understanding the spirit realm and interaction with spirits of all kinds, accessing powers of place, traveling the world tree and working with the seven directions and exploring and navigating within the Celtic Otherworld. With practical techniques, exercises and core skills, *The Druid Shaman* can be used as a practical manual as well as a valuable resource for practicing shamans and druids as well as those new to the subject.

Customer Reviews

I am so very glad I ordered this book. It's beautifully bound and illustrated with very useful information. I've been sitting out in my garden reading it. Makes me feel very much in touch with all that is around me and puts a smile on my face. Has lots of information about the inter-worlds we

used to know. I plan to purchase more books like it and recommend it to anyone who loves nature.

Haven't completely finished, but am over 90% done. There are some grammatical mistakes that make me cringe, and you'd think an editor or publisher would fix these before release. The premise of the book is a good one. It teaches someone on the path the basic principles behind spirit travelling. The author did add a bunch of fluff in there that I think is unnecessary. Don't tell someone what to visualize when they are meditating. Everyone will have different experiences, and if you paint the picture of your experience, you may change their subconscious views and alter their experience (which I see as detrimental to your cause of teaching others). Other than that, it's a good guide for a beginner.

Wonderful little book. A pocket guide that is beautifully written and lovingly illustrated. Guides the reader to lots of simple activities to connect with the spirits of nature. A stepping stone to deeper exploration. Educational.

A wonderful overview of Druid/shamanic practices that I find very useful! As I go through the Path I've chosen, this little book has some great techniques to help me along my way. I recommend it to anyone seeking to follow this path.

Danu Forest does a great job in not only describing the techniques, but gives some insight into the lore of the Other world. I highly recommend this book for all those would-be Shamans!

An exciting how to book for those either exploring the Druid's path or for those already practicing this ancient and venerable path.

Very informative kind of known I could feel things all my life Any one that wants a better understanding of their self

Very well written and finally a clear understanding of the origins and traditions of the Druids. A must have for beginners as well as a good reference for more advanced practitioners.
