## Synopsis

The books that launched the hit cartoon! As promised, here's a post about kids' books, and specifically Meomi's fabulous The Octonauts series... The books in question are The Only Lonely Monster, The Sea of Shade, and the new release, The Frown Fish. All hold the attention of the grownups, the teenager, and the school-age tike in the house. Seriously, everyone should run out and get these. - BoingBoing "Too many children's books talk down to kids, thinking that talking on their level equates to dropping IQ points. It's refreshing to read The Octonauts and the Frown Fish, a smart and entertaining kids book; it's fun and teaches a lesson to look past the exterior and appreciate what's inside. Comic book readers looking to get their kids into graphic storytelling early will want to seek out this one. Nice bed time story reading, this one is." - Ain't It Cool News This is the original book series that launched the animated TV show, which is now popular worldwide and broadcast on the Disney Channel in the USA. Discover the creative and fun stories where it all began! In this third Octonauts storybook, the crew meets a fish with a giant frown on his face. He looks so glum that he's causing everyone around him to feel down also. Our heroes need to find a way to cheer him up! The Octonauts try music-making, field trips, miniature golf, and even a baking marathon, but can they make their new friend smile? Blame it on the Olympics. With Beijing behind us, thoughts turn to Vancouver, then Meomi, the team that designed the 2010 mascots. Next thing you know, we remember there is a new Octonauts book coming out in October. Why write about clown fish when there's a frown fish that needs cheering up? In The Octonauts and the Frown Fish by Meomi, the underwater crew use activities such as a baking marathon to entice their new friend to smile. Another affordable piece for the adult collector of cute. Art MoCo This is the third edition in the Octonauts series and yet again the colors are right on point. The cast of colorful characters are on another deep blue adventure, this time to help out the frown fish have a little fun. Each page is a treat for any color lover as the book is full of color cuteness of soft yet vibrant palettes, and the wonderful compositions and styling we've come to expect from the Meomi team's illustrations. - Colour Lovers The Octonauts are a crew of eight adorable undersea explorers. I fell in love with all of them, and I don't think I could pick a favorite animal. In The Octonauts and the Frown Fish, the crew finds a fish that frowns all the time. They don't know why the fish frowns because they don't speak 'Frownese.' The Octonauts are determined to cheer the fish up. This book elicited the 'aww, that's cute' reaction many times. The artwork is so adorable, and the story is simple but sweet. I hope the Frown Fish becomes a recurring character. I don't know if I'd describe

this as a children's book because adults can enjoy it as well. The artwork alone is worth the price of the book. I would recommend it for anyone with kids or anyone who is a kid at heart. - Supah Cute

## Customer Reviews

"[The Octonauts & the Frown Fish] not only is filled with illustrations of cute stylized sea creatures, but the story itself is very appealing to young readers...For designers, illustrators and those in the media industry, this is a keepsake with its lovely illustration for reference and also educational purpose. Every page is filled with endearing soft sweet colors and there is not a single space that has no colors. For parents, this is suitable for young kids to get started on adventure and exciting stories, building up curiosity about science, biology and not to forget that inquisitive mind of a young reader for detective-styled storyline. You'll be surprised if you discover a little Sherlock Holmes in the making. All in all, the storyline is simply done, the illustrations are just marvelous and the characters are just adorable and innocent. Would be a good gift for this coming Christmas." Enjoy the story...did not like walking in to see my toddler had torn off the back cover. But it's still living so...it's ok. He also loves the show.

Beautiful illustrations and lovely story. My three year old adores the Octonauts and this was the perfect addition to our collection!

Excellent children stories

Cute story that my 3 year old loved. He enjoys that during the story the book has to change to vertical to read the next page.

My kids loved it!!! Wish there's more!

it was a gift

This is an awesome franchise. They have a show on Netflix too!

My kids and I both love this book! They started with the TV show and this book is just as sweet. We love the characters and story line. There is so much to look at on each page, and little humorous

"bits" are thrown in throughout the story line and pictures. We have read this one again and again--Meomi is a terrific author team.
