I gave this to a seven-year-old girl who is having trouble with reading comprehension. It seems to be helping her. Plus, she gets to play with the results. It is a confidence builder. It comes with good instructions and has tear-out pages with which to make the planes. You can fold a couple of airplanes as a two-person project and then turn the kid loose on her own. Nothing is better for a kid than a feeling of accomplishment.

I bought this book for my 6 yr old grandson. After going through it, I like it a lot. There's only one plane that has any cutting to it. The rest can be made simply by folding. My only complaint is that it

costs \$29 and when you turn it over, the retail price on the back is \$8.99. So.....I think it's quite the rip off!

Great book, though could use more stickers to match all of the pictures. My 7 and 4 year old enjoy building and decorating the planes. It is difficult at times for them to fully tear out the pages without ripping them. That and the lack of matching stickers is a bit frustrating for them. Overall it's a great buy and a lot of fun. Plus, the designs are great!

My kids love it, but I imagined the provided paper to have different fun designs. Half are blue, half are yellow. Kind of lame. But - the kids love it!

Never saw it- it was given as an anonymous Christmas gift along with other presents for a family with many different age children.

My 8 year old loves this book and so do his classmates! The book really teaches you how to create the fastest flying airplanes! It's a lot of fun! Even for forty-year olds!

EASY INSTRUCTIONS WITH LOTS OF DIFFERENT TYPES THAT DO DIFFERENT STUNTS!
EVEN THE PAPER IS SUPPLIED AND INCLUDES STICKERS TO MAKE IT EVEN MORE FUN.
WE HAVE A LOT OF FUN WITH THEM AND THE PAPER MAY GET USED, BUT THE
INSTRUCTION BOOK LASTS AND YOU CAN ALWAYS BUY MORE PAPER!! MIXED IT UP A
LITTLE AND CAME UP WITH SOME OF OUR OWN!!

My son loved it, everything you need, even paper!
