# Aventurine (The Chalcedony Chronicles Book 3)

## Synopsis

Book Three of The Chalcedony Chronicles A paranormal/time travel romance series. Book One: [bkmc.me/Book1Carnelian](http://bkmc.me/Book1Carnelian) Book Two: [bkmc.me/Book2Chrysoprase](http://bkmc.me/Book2Chrysoprase) Mari's past and present are all mixed together. To start she finds herself trapped in the past while her friends from the past are now all in the future. She wants to go home, but Logan Jones has different plans which include Mari. He might say he wants her, but soon she realizes that there's something more behind it. To save everyone in the future, Mari strikes a deal. She must give up Seth and agree to date Logan. In return, he'll teach her to how help her friends and family. Only, letting go of Seth, and falling for Logan aren't easy feats. If Mari can't figure out how to do so, she might lose everyone she loves.

## Customer Reviews

I have mixed feelings about Aventurine. On one hand, it does continue the story that I was interested in Chrysoprase. However, on the other hand, it fell short on a few aspects. Aventurine is the third book in the Chalcedony Chronicles and, in my thoughts, the second best in the series. We

get to see more of Logan, which was a big plus for me. I wanted to know more about this antagonist. I wanted to see him work. McMichael does a fairly good representation of what our antagonist is like and I was able to see his motivations clearly. Unfortunately, that made me want to smack around Mari. As a character, she has changed from the first book. Which is what you want in a series. However, I feel she is going downhill instead of up. Mari is too trusting to Logan. Even though she goes through Ky's plans, she doesn't recognize the dangers Logan poses. I feel the book was a good attempt at strengthening the story, but at the cost of Mari's personality. She lost some of that spark she had before meeting Seth. I understand that she needed to play a part, but even she seemed to believe that part quickly. It didn't just piss me off, it annoyed Ky too. Who, I may add, is a very sound voice in the last two books. All in all, it was an okay book. Not my favorite, but better than the first.

Another win by B. Kristin McMichael! Another story that makes me believe in the one true love and pulled on my heart's own memories. From soft smiles, to tears - BKM has what it takes to pull me into her magical world where I am so much a part of the story I shed tears of happiness, sadness, and just the overfullness of joy!! I've dried most of my tears, refilled my drink, and am about to finish this wonder of time travel.

This was a pretty good addition to the series. The only thing I didn't like is that Mari seemed sooooo passive in this book. She just kind of accepted her fate and trickery that Logan used on her. She didn't really seem to try much to get out of it. I mean, I understand a bit because she was doing it because she thought she was saving Seth, but she was doing basically nothing but complaining about what had happened and how she couldn't get out of it. I don't know. It was just so different compared to the first two books where she at least had determination and a bit of fight, even if she didn't know if she'd succeed. But in this book she was totally submissive and it bothered me a bit. I'm hoping she has more fight in her in the next book. Other than that I really did enjoy this book. And I can't wait to find out more about Kye. He's been an interesting character so far and I'm sure we are going to find out who he really is in the next book. I don't believe he's Logan's brother for one second. So let's find out!

What can be said about again another excellent work by BKM. I personally have read all her books and the these series Chalcedony Chronicles is my favorite. This book (#3) to me was a chance to understand the other side of the coin (aka Logan). I also enjoyed the explanation of how it all began

and who the people are. I felt thru out the whole book that Kye was the best character by far. I don't know what Mari would have done with out him. He was definitely her life raft. If you are expecting a book full of Seth its not going to happen. If you expect a book full of growth and explanation of the worlds, the people and how it all began then you will not be bored or disappointed This book is all about Mari, Kye and Logan. I cant wait for the 4th book.

This one is very slow going and there are a lot of logic errors where the author says the characters are doing one thing then a few pages later do something different as if they did not say the earlier things. Things like Logan telling our heroine to dress warm cause they are going somewhere cold but a few pages later she is putting on a sun dress. Better editing needed. However, if you ignore these continuity issues it is still a good book. It's complicated reading as you have all the time travel and multiple lives for lots of the characters so sometimes it is a bit hard to keep things straight but this just adds to the enjoyment of this book as you have to keep your wits about you all the time. The plot drags after a while and a couple of times I was ready to give up but thankfully I did not. Hopefully the next book has a bit more action and adventure in it. Good writing and interesting world building. Well worth reading.

So far this series has been great! The only issues I have with the books are some of the grammatical errors. When referring to people, the author says for example: "She is the one that has the stone" instead of "She is the one WHO has the stone". In most cases this is one of the most glaring grammatical errors: "She's going to do it anyways", when it should be "She's going to do it ANYWAY". Despite that, I enjoy the series very much.

First off the mari is slow. And many times she questions the same stuff the she has answers to but yet still has know clue whats going in. She claims she can protect herself really I dont see it... I like where the book is going so ive cont to read and will read the 4th book I think it could be better though if the author remembers things shes previous written if she's going to make someone reference back to it..

I wish this series would never end! I love it so much! I read each of the books so fast that I have to wait what seems like FOREVER for the next on to come out. :)
