Customer Reviews

There has been nothing in English like Grimal's authoritative dictionary of Greek and Roman mythological figures. Now translated, this text will be an essential source for specialists and general readers alike. Alphabetized, biographical entries are comprehensive, careful to indicate historical and literary context, free from ideology, and readable. Each entry provides extremely useful bibliographic references to ancient literature. Forty genealogical tables, two maps, cross-references, full index, and illustrations further enhance the utility of this invaluable, and sorely needed, source. Stephen Scully, Classical Studies Dept., Boston Univ. Copyright 1986 Reed Business Information, Inc.

"This substantial and attractive book should be warmly welcomed . . . a work at once authoritative and complete with an impressive standard of accuracy: the generous cross-referencing given makes browsing an almost mandatory pleasure, and it will indeed be a learned reader who does not find something he did not previously know on almost every page." Times Literary Supplement

"There has been nothing in English like Grimal's authoritative dictionary... this text will be an

essential source for specialists and general readers alike... invaluable and sorely needed." Library Journal --This text refers to the Paperback edition.

Loved the book. Im into classic mythogoloy so when i received the book I immediately started reading. The book was so good i even took it to work to read. If you are into mythology this is a must read

I love this book and since I'm teaching myself about Greek/Roman Mythology, it has been the best help!

My grandson thinks it's a very nice book. He's quite into mythology and read it in a couple of days.

good condition, excellent price

It's just what one needs when wading through the classical mythological epics. A dictionary, in dictionary format of all the beings, places, forces and their complex interrelationships. It's in alphabetical order, requiring no previous knowledge to look things up.

I agree with the other reviewers that this is an outstanding compilation, maybe even beyond the needs of the casual reader, but it is not expensive and more than worth the price.

i WANTED MORE HISTORY AND MORE STORIES..THIS WAS PASSABLE....

This is a terrific resource for searching names and relationships from the ancient stories. I had the Oxford edition a few years ago, but it seems to have disappeared; so I'm grateful for this as a replacement.
