Ghost Dance (Time Dance Book 1)

Synopsis

She was his beginning, his life, and his end. And she did not know it yet. Daniel is the orphaned son of a Powhatan warrior, born in seventeenth century Jamestown. When he is injured in the Battle of Bloody Run and left for dead, he wakes in the care of a young woman named Emmy. As she nurses him back to health, he soon realizes that she is from another time and that she is the Time Walker his enemies have been searching for. Emmy is a reluctant Time Walker, sent to 1656 Virginia on her mother's dying command. She prepares for her journey to the past as much as any modern woman could, but soon she realizes that the ancient blood running through her veins makes her a target for danger no matter what time she is in. Daniel is a complication she did not expect a man who is tangled in her heart and her history in a way that can never be undone. In a time when settlers flooded the New World under the rule of English Kings and the First People fought to keep their way of life, an alliance between Daniel and Emmy is not easily achieved. Yet as their lives are irrevocably entwined by fate and circumstance, they realize they must trust each other if they hope to survive what the history books have already written.

Customer Reviews

I really enjoyed the Time Walker series, so was excited to read an extension of this series. If you liked the Time Walker series, you will love this book. I like female characters who are strong and Emmy is a strong female. I also liked how Daniel wasn't perfect and their relationship had its' ups and downs. The only thing I didn't like about the book is that this is part of a series. I normally don't like series books, but this book was long enough that it doesn't feel like one book that was just hacked up into a bunch of separate books.

Loved it

This book is a continuation of the Time Walker series that I have read and enjoyed. It was such a treat to see that E.B. Brown had started another series that I immediately bought it for my Kindle. The story is exciting, the characters well developed, rich and likable with a strong female lead. The sexual content is loving and not too explicit (for my taste). I have two complaints that have nothing to do with the author's writing: (1) The Kindle edition contained so many typos that it would have infuriated me if I was this author and (2) At the end of the Kindle edition, it was announced that Book 2 in the series would be published in December 2016. I read the book in February 2017 and the second edition is not available yet. When I'm reading a series, I will often buy the next book in the series, right from my Kindle, if it is offered. I couldn't do that with this book and was disappointed. Nonetheless, I will continue to watch for Book 2 in the series.

I had forgotten how great a writer EB Brown is until I read this book. It is an off shoot of a previous series she wrote and I'm so glad to connect with the characters again. The book is strong and has good characters. The majority of the book is totally new, only introducing the original characters later as the story progresses. I love the time travel, history and the story overall. She connects present with the past almost seamlessly. I can't wait for the next book in the series. I highly recommend this book and any of her other books.

Absolutely enjoyed this book. Can't wait for another.

This was an enjoyable story. I enjoyed the characters and the story line. It needs some final editing for typos etc.

Great story! Had a hard time putting it down!

Very good story. If I had known there was a prequel set I would have read it first.
