Petter Hegre's previous book was the critically acclaimed Luba, featuring his Ukrainian-born model wife. His work can be seen at [www.Hegre-Archives.com](http://www.Hegre-Archives.com), one of the fastest-growing sites on the Internet. He lives in Lagoa, Portugal.

Hegre has really made a name for himself through the years, and I have to say that since I started finding his pictures, I developed certain respect for his work. Nevertheless, I gotta admit, this book doesn't particularly improve my opinion of his talent. Now, the good parts. One of the things I have always admired of Mr. Hegre's work, is that he's one of the very few photographers I've seen that can shoot a picture "showing pink", and it looks really artistic (with a few exceptions) in contrast with the cheap "pink showing pictures" you find elsewhere. And his shots look amazingly sharp 99% of the time. And for the book itself, the quality of the paper, the printing and the binding is really good. The bad, well, as many people have said before me, there's very little difference, if any at all,

between this book's contents, and those find on his website, and others where he collaborates. Second, I expected much more from someone with his talent and experience. I think that any serious amateur photographer with the right equipment could have nailed those shots. Third, there is very little variety. Don't misunderstand me, this women, almost without exception, are so stunning that they take your breath away. But they look a lot alike. I don't totally regret having bought it, but if I had seen it first, I probably wouldn't have.

hegre's work is amazing,..excellent photography, very inspiritaional if your pursuing boudoir style Photo-work,..I would recommend this. Its on my coffee table with a suicide girls gallery book .

Nudity. What does it evoke? Sexuality? Freedom? Familiarity? Comfort? The human as abstract? Hegre captures all of these in this book through a series of portraits of different young women posing nude. While a few images are clearly erotic, not all are. Ellen (#23) strikes a very pose which produces an almost abstract piece of photographic artwork. Ingrid, #33, poses in a work that inspires a sense of playful freedom. Kristina, #47, stretches out in joy. Lza's (#57) tatoos make for almost disturbing art. The second portrait of Sabina (#76) evokes a greater sense of familiarity and comfort than anything else, and so forth. In each image, one is absorbed and subsumed into a world which evokes emotions. Sometimes sexuality is a part of those emotions but often it is not. The composition in the images is always excellent. There's a reason why Hegre's art is highly acclaimed. He's a real master.

I was basically looking for a book with good looking women taking in a professional manner. I liked this book. although the subjects are not professional models, they looked good and the pictures are of high quality.

Hegre has an eye for a certain kind of beauty in women. Not all women's lives create it, it may be prettiness rather than beauty, and it lasts for only a short part of a life. Still, it's there, and Hegre has captured 100 different kinds of it. Marketa, the cover model, sets the pattern: they're all young, slender, and very lovely. A few, like Tatiane and Lucy, don't match the European mold - very few, and I would have liked more of the variety they represent. Some, like Luba are very 'posed.' Others, like Olga and Lena or Sveta and Inga, show models in close groups, hinting at physcial affection between them. Natural looks predominate but some - like Lza - offer surprises. The majority, typified by Olga, Andrea, and Dina, convey the fun the woman seems to have in simply being herself. This

book is almost too much, though. The models are sweet, but I wouldn't want to eat only desserts all the time either. There are lots of other ways for a woman to look good - but Hegre has ignored them in favor of just this very conventional one. Well, it's an easy one to enjoy. This is a lovely collection of very pretty young women. It's not overtly erotic, except maybe once or twice. Instead, it simply celebrates the charm and elegance that's native to these lovely models.//wiredweird
