My AP Human teacher recommended this book to me and now I'm recommending it to you! It goes over all the key points and helped me to pass with a 4. Princeton review books are the best way to go when buying a study book!

the best book it helped my daughter a lot she got the best score in class.WE WOULD RECOMMEND it

I'm not sure how much my daughter used it, but she got a 5, so clearly it didn't hurt to have this study guide!

I used this book in conjunction with the material I was learning in class throughout the year. Sometimes, when I didn't understand what was taught in class I would find it in the book, and it was pretty helpful in helping me learn it. I still haven't received my AP score, but I'll update this review when I do.

I'm a big fan of Princeton prep books!!! They are so detailed and explains very well.

Great book for studying for the Calc BC exam

I really like this book, it has reviews all of the APHG content in an understandable way, it has multiple practice tests and test taking skills. It definitely helped me on the test.

Excellent content! Exactly what my daughter needed to feel fully prepared for the AP Human Geography test. It is much more thorough than some of the other review books out there.
