Search Press is well-known for their excellent instructional books in all kinds arts and crafts – from embroidery to painting and drawing, paper crafts, knitting, cake decorating – you name it! They're a strong, quality publishing company, and their acquisition of the rights bodes well for the future availability of the series, as well as for the continuation of it.- Mary Corbet's Needle 'n Thread (on the A-Z Series)

Compiled by the expert team at Country Bumpkin, renowned Australian publishers of embroidery books and magazines.

I felt as though the pictures they gave for explaining how to do the individual stitches would have been better if they had used numbers instead of letters. I found them a bit confusing. They could have been simpler. Also, I didn't find directions on things like how to plan out your project, etc. So, if you are a beginner, this book might not be for you.

This is a very useful book. Can be used as a resource for learning or find specific stitches. The book has not only cross stitching but needlepoint and needlework.

Very nice book giving many different needlepoint stitches and how to do them both horizontally and diagonally.

Great descriptions, easy to follow, exactly what I was looking for.

Detailed step-by-step instructions make it easy to stitch professional-looking needlepoint patterns.

Beautiful stitches and very clear, illustrated instructions.

Great book!

Great resource book for needlepoint stitchers! Photo illustrations of the stitches very easy to see and many useful stitches shown. This book will definitely be used frequently!
