MERCER MAYER began writing and illustrating children's books in 1966, and since then, he has published over 300 titles. Readers can open almost any of his award-winning books and out may pop dragons, cuddly monsters, wonderful creatures, and endearing critters. Drawing from his own childhood adventures for inspiration, Mayer created one of children's books most cherished characters, Little Critter. He currently lives in Connecticut.

I purchased this book to read to my son I love the Little Critters series, and this one is about Little Critters puppy. These type of books are easy to read and has great colorful pictures. We have three dogs and we plan on teaching him responsibility. This book teaches just that. It talks about how to care for your puppy The whole Little Critters series teaches some kind of thing, and for us, this one is perfect for what we want our son to learn. Teaching a child through a story is the best way to get

them to retain the information you want them to remember. After reading it, you can ask them questions pertaining to the story to see if they were paying attention and to also remind them of what occurred. Please also remember that a child has to listen to a story at least 3 times to remember what is being read to them due to their short attention span. I purchased this book at full price for personal enjoyment. No discount was offered.

This is a great book to teach kids about responsibility if they wish to own a pet and how hard it can be to take care of one, but the rewards are truly great. My son loves Little Critter with a passion so when he saw this book he just had to have it. When you take his love for animals and put it with Little Critter it's just a win win situation. Little Critter learns how hard it can be to take care of his new dog or teach him tricks, but loves his adventures with the dog. I think the book is an accurate portrayal of how it will be for any child getting a new pet so I definitely recommend it!

My kids love this book and I love how cute the little puppy is! In my opinion, some of these series books don't always encourage proper behavior in kids but this one is fairly neutral. Just make sure your kids don't get the vibe that it's ok to bring home a puppy without asking!

Fast delivery! Great packaging! Awesome seller!!! 2nd time I've purchased from them!! Definitely recommend!! Product was exactly as pictured and described!! Beautiful book for my grandson!!

I purchased these Mercer Mayer books for our youngest son Darius, as teaching tools for "life" concepts. Of late, I've been giving them to my adult children as teaching tools for LIFE concepts, they cross the generational gap easily. My older boy, Ben (twenty-eight) was initially aggravated, but he read it, smiled. We talked, he assured me that he now "get's it". I would highly recommend these for any parent.

Cute book puppies are sweet and lovable this book shows the relationship of a true friendship

I had these books as a kid and loved them. Now my kids love them. Good quality book.

Cute book. We just got a puppy, so it was a perfect book to read to my little one.
