Good sized, sturdy map. Easy to walk around with. Proper level of detail.

Munich is not well served by Lonely Planet as a destination. The only guide book available is "Munich, Bavaria and the Black Forest", which allocates only 45 of its 300+ pages to Munich. Which is fine if you are travelling around the region but not so useful if Munich is your destination. Nor is the Munich section terribly thorough: Rick Steve's "Germany 2017" is better on Munich. The Munich city map gives you a water and tear-resistant map (made from the same sort of material that currency is starting to be made from in New Zealand, Australia and Canada among others). You can write on it with a ballpoint or use a highlighter. On one side is a map of the city with the font size for the streets approximately size 7. Almost all the main sights are clearly marked, including things like the Funf Hofe shopping mall and Hofbrauhaus beer hall. Some small streets and laneways are not marked, or not named. The overall map size is 24.8"/630mm x 19.5"/494mm. On the reverse is a quick precis of the top sights (with photos) - telling you what they are rather than a guide as such. There is a brief suggested walking tour through the Old Town, a (fairly useless) public transport map, a street index and some other useful general information. The map comes in a cardboard cover with a suggested itinerary for "three perfect days in Munich". Yes you probably could pick up a free map in Munich that would give you most of what you get here (though almost certainly less durable and smaller in size). The advantage of this map is that you can use it to plan your visit in advance: to highlight sights that you want to see and write in anything useful to you (for example I added laundromat locations, our hotel location, shops I wanted to visit and some recommended restaurants to mine). Rick Steve's guide will walk you through sights like Dachau, the Residenz Museum and the main art galleries, but if you don't need that level of hand-holding (nor the additional weight), this is an excellent planning tool.
