Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

I saw this on a local program of which I am a devotee. I purchased one for my brother, my daughter,

then one of my nieces.

Just as expected. Nice pocket guide. Got the Ohio birds guide also, very nice

Actual photos would have made this very limited publication much more helpful. The paintings are a bit unrealistic. Nice pocket resource but not if you are serious about it. only a couple of dozen species are identified.

I purchased this for my 5 yr old daughter. It is already the hit of the summer. She loves catching butterflies. This is extra durable and has great pictures for her to compare.
