How To Help The Earth-by The Lorax (Dr. Seuss) (Step Into Reading)

Synopsis

The star of The Lorax by Dr. Seuss makes his Step into Reading debut in this rhymed reader that offers kids easy suggestions for going green! After explaining how the trash in a wastebasket ultimately ends up in a landfill or incinerator, the Lorax suggests realistic ways children can reduce waste, such as by carrying a lunch box, donating old clothes and toys, sharing magazines with friends, recycling cans and bottles, and using rechargeable batteries. He also explains how they can save energy around the home by turning off lights, taking shorter showers, donning sweaters to stay warm, and much, much more. All in all, this is a great introduction to helping the Earth and helping kids step into reading!

Book Information

Lexile Measure: 0580 (What's this?)

Series: Step into Reading

Paperback: 48 pages

Publisher: Random House Books for Young Readers (January 10, 2012)

Language: English

Grade Level: Kindergarten - 3

Customer Reviews

TISH RABE is the author of many children's books, among them 12 titles in the Cat in the Hat Learning Library series. CHRISTOPHER MORONEY has illustrated countless children's books.

I love these series. But most important that my son does. I got 40+ books and he loves to read them (usually it is not that easy to make him read). I got mix of 2-3-4 levels for the second grader, second

level is too easy, but it creates some fun and he reads them with pleasure. Love it, I would recommend it.

Kindergarten class really loved this book. Read this one after reading The Lorax and it really helped to bring home the lessons of The Lorax. I heard "I am the Lorax and I speak for the trees" all the rest of the day. Great book for an Earth Day lesson or mini lesson during Dr. Seuss week.

Great book for Earth Day

I got this book for our local Head Start program 3-5 year olds, it was great for them and would be appropriate for kids a little older too. It helps make kids aware of where our trash goes/how much water we use/etc.

I purchased this as a supplement to my Preschool Curriculum theme on recycling. The children were attentive to the story and the familiar characters.

It gets my 3 year old excited about recycling and she now yells at us to stop running the water when we brush our teeth. Cute book!

A pretty good book based on The Lorax. I'm always happy to find a level 3 reader with no inappropriate content or name calling. The environmental stuff presented is mostly good, if a little simplistic. It's not Dr. Seuss, but it's good enough and fairly educational as well. My son likes it and he is 5.

My son enjoyed this book and it was just right for his level. A little difficult, but not too hard that he couldn't get through it, and was able to learn from it.
