This was a replacement. Our copy vanished from our church library. That alone should be a testimony for the book.

Solid read, this is great reference material. I don't feel this is a read once and done book, it's one that can be revisited time and time again as applicable.

Great, great, great book. I've recommended it to several friends already. I love that he emphasizes the importance of seeing your child for who they are and not trying to hammer them into a certain mold. I have had a great time getting to know the little person that God has placed in my care. I also appreciated how much he points out that more is caught than taught and reminds me that our children will "follow me and I follow Christ". Again, I would recommend this book hands down.

The best book I've ever read. Easy to read and biblically inspired. Highly recommended to any human being over 18.

Good specificity; I can be a noble Berean and go to his source and affirm Dr. Swindol's teaching. He is like a smart Professor you can talk to all the time.

Great Book!

I am very satisfied with my purchase of this product. I enjoyed using to purchase it and received it with no issues.
