Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #2,313,671 in Books (See Top 100 in Books) #3 in [Books > History > Americas > Caribbean & West Indies > Saint Vincent](#) #46941 in [Books > Textbooks > Humanities > History](#) #82274 in [Books > History > World](#)

Customer Reviews

it is a great book.

This book is a wonder. And I mean just that. It's about people who have second or third or fourth homes on an island that has been purposefully developed to house them in privacy and various definitions of splendour. Not exactly appealing to all, right? But this book IS appealing, it's the embodiment of the capitalist dream: get the money and THEN what do you do with it? Build or buy a house on Mustique. BEST is the text, a well-written account of how this all happened. And the PHOTOGRAPHS are lovely, chosen to evoke the mood. Yes, the book is expensive (no where nearly as the real estate!), but it's worth every penny. May not be my dream, but it a serious chronicle of some important other dreams in the late 20th/early 21st century.

This is an excellently written book about one of the world's most expensive "developments," a scrub island turned into a multi-millionaires' paradise. Mr. Vaughan has done a masterful job of capturing the whimsy and the vision (albeit sometimes slightly cock-eyed) of the man who dreamed this all up, as well as bits of the lives of those who are now availing themselves of the private, secure, and demonstrably exquisitely beautiful end result. The photographs are lovely, this is an altogether great book to have lying around on any coffee table; it's sure to spark conversation ("is that really Mick

Jagger?" et cetera).

I think this book captures the true essence of the island of Mustique. It shown all the wonderful beaches and the beautiful water. I believe that the photos of the people that live on the island and the photos of their town make Mustique a place I would want to visit for years to come.
