# Ophthalmic Medical Assisting: An Independent Study Course, 5th Ed. (Textbook)

## Synopsis

The fully illustrated core textbook describes 44 procedures step by step and covers all topics in both the U.S. and international curricula. It includes new chapters on ocular motility; low vision; ethics, legal and regulatory issues; and community health eye care. Each chapter includes self-assessment questions and suggested activities and resources. Successful completion of the course serves as a prerequisite for the Certified Ophthalmic Assistant (COA) examination administered by the Joint Commission on Allied Health Personnel in Ophthalmology (JCAHPO). This product is the TEXTBOOK ONLY.

## Customer Reviews

I am really impressed with how well this book is laid out. It is a great teaching tool and I would encourage all who want to learn in the field of ophthalmology to purchase this book. Even if you have been in the field a while, it is a nice refresher book.

Exactly the same book you need for your COA home study course!

Outstanding

My husband is using this as a study guide and says it's great.

This book help me get my COA!

perfect. Got it the next day.
