Enjoying Big Bend National Park: A Friendly Guide To Adventures For Everyone (W.L. Moody, Jr., Natural History (Paperback))

Synopsis

This book will help turn every trip to Big Bend National Park into a memorable adventure. A Veteran naturalist Gary Clark and photographer Kathy Adams Clark help you choose the best hike or drive in Big Bend National Park, based on the season in which you visit; the number of days you have in the park; and your activity, age, and fitness levels. The Clarks provide valuable practical information, along with a descriptive list of items essential for being outdoors in desert and mountain environments and an overview of park rules. They describe more than thirty activities available in the park: two-hour or half- and full-day adventures; adventures for the physically fit or physically challenged; and adventures with children, for nature lovers, or in vehicles. The Clarks also point out scenic highlights and animals and plants that might be seen along the way.

I actually had this one sent to my sister since we were traveling together. She marked more stuff to do than we had time in our week there!!! We did have a little bit of a hard time translating the descriptions in the book to the park map and visa versa. A map of the park is a must because some of the starting points in the book seemed vague. All in all a great book that I will use again and again and again!!

Good reference. Served as a good intro to the Big Bend.

Great quick overview guide with nice pictures.

Bought it for my first trip to Big Bend. Has a lot of great information that will help me make the most of the few days I'll be there.

Very informative and a good way to prepare for your trip to Big Bend. Not a great guide for the off-road trails but does a good job of other areas of the park.

Very detailed directions, cautions, time involved, equipment, what to look for- a dang good guide to keep for every trip plan to Big Bend

Beautiful park. Nice to have tips and hints to make it easier to visit.

A wonderful guide that we used to guide us and found all information right on the money Good pictures and correct time frames for hikes
