Customer Reviews

You must picking choose which advice to listen to from this book. I'm more interested in being ready for the next life than extending this one a few years, but this book gives you advice on how to live longer.

This book was great.if you want to live to one hundred this will give you ways to reach your goal. I am following some of the ways stipulated in the book. Wish there was a continuation to long life secrets.

This is an enlightening and entertaining book. As someone interested in living a long healthy life, I was familiar with some of the secrets discussed in the book, but was genuinely surprised by a lot of the others. It was really nice to learn that these are uncomplicated methods that can easily be incorporated into your daily life, one at a time. I will be recommending it to my friends and family.
