Chihuly Garden Installations

Synopsis

The greatest living artist in the medium of glass, Dale Chihuly has long been fascinated by the colors and forms of nature. Over the years, his work has become increasingly open, using forms that show a strong relationship to the architecture of natural shapes. Here, lush illustrations showcase Chihuly's unique glass sculptures positioned among the plants, flowers, and landscapes of some of the world's finest gardens and conservatories, from St. Louis to Phoenix to Kew. Tracing the connection between Chihuly's art and botanical life, Chihuly Garden Installations shows how the exchange between art and nature can shift from the harmonious and tranquil to stunning juxtapositions of scale and color. Praise for CHIHULY GARDEN INSTALLATIONS: "The glass artist Dale Chihuly is always good for a change of a scene. . . . Chihuly Garden Installations is a weighty compendium of crowd-pleasing work. Bright pink chunks of glass sparkle over lily pads in the Fairchild Tropical Botanic Garden in Coral Gables, Fla., while leopard-spotted bronze trumpets rise up through the foliage at the Missouri Botanical Garden in St. Louis as close as man will ever get to making flowers." — Dominique Browning, New York Times Book Review

I want my work to look like it just happened, as if it were made by nature. -- Dale Chihuly "Chihuly Garden Installations" --This text refers to an alternate Hardcover edition.

Dale Chihuly is an icon of American art and cofounder of the renowned Pilchuck Glass School

outside Seattle. His work is in the collections of over 200 museums worldwide. David Ebony is the managing editor of Art in America magazine. He lives in New York City. Tim Richardson is a garden and landscape critic and historian based in London. Mark McDonnell is former chairman of the Glass Department at the California College of the Arts. He lives in San Francisco.

I find it interesting that Chihuly's art cannot really be appreciated in a widespread way without truly spectacular photography OF his artworks. If you are lucky enough to see one of his creations in person or visit his 1 "retail" museum/ shop in Florida (or now his very own glass house in Seattle) then you realize how hard it is to capture his utterly unique visions with a camera. This book is just about perfect in this regard. You can see his intentions & get a good feeling for his creative process & the skill, time, energy, genius and wit that his exhibitions require. I'd like to chop up the pages & display them as posters.....Mmmmm, kinda pricey & I don;t believe in destroying books but it is tempting. I have a poster of his --the more exclusive prints etc are out of my price range--but I can afford & enjoy the books of his works. Also his calendars. I have other books of his but this one is simply wonderful -- bright, vivid colors & lush almost 3-D effects. also gave me a great price !

If you are going to get 1 book from Chihuly, this is it! This book is worth the full price and at 's price, it's a bargain. I've looked through quite a few of Chihuly's books and this is by far the best. My favorite coffee table book. The photographs are truly stunning. And the pictures come to life in the garden settings. It's one of those books I'll look through and each and every time I'm left dazed with amazement and wonder at Chihuly's work. This is the 2nd best thing next to being able to see Chihuly's work at an exhibit or museum.

I saw the Dale Chihuly installation at the Dallas Arboretum and it changed my life. Always a lover of glass and color, to see his nature-inspired works was fun and moving. I immediately came home and ordered 2 of his books from . This one is beautifully done, excellent quality photos, and background on the artist. It is heavy, a perfect coffee table book and my guests have been enthralled with the photos. Buy this if you love art, color, glass and inspiration.

I live outside of Atlanta and saw the Atlanta Botanical Garden installation. It was great! This book is absolutely gorgeous, the photography is first class the Glass is beautiful and the gardens wonderful. There is no one like Chihuly, he is a one of a kind artist and his work is the best. I highly recommend this book it is the best Coffee Table book I have ever seen. Get it you will love it.

This is an absolutely beautiful book. The photographs show stunning, colorful displays of Dale Chihuly's Glass installations at many famous Gardens around the states.

Nice thick quality coffee table book full of beautiful pictures of Chihuly's installations around the world. Makes a fabulous gift.

Beautiful book on a coffee table, a lot of colors. Love what this artist does.

This was a gift for my daughter, so I haven't actually seen it and my stars are based on her reaction: "It's really big and beautiful." It arrived in a timely way.
