Customer Reviews

This is a small book to begin with (approx. 4"x6"), and the two pages that contain the "tattoos" are even smaller yet; they are the height of the book and 3" wide. Know what you are getting to avoid disappointment. I put one on top of my foot and messed up the edge because I didn't get my hands completely dry before applying. However, it wasn't that noticeable, and the transfer looked great. It lasted for over a week until I was crawling across the carpet and rubbed some of it off. Easy removal: any kind of tape.

The detail is out of this world. Anna Pomaska is a genius intuned with such creativity that I cannot put into words. I would recommend anyone looking to see how beautiful the world of henna cultural/Eastern influence- to order any of Anna's Henna products available. I ordered the butterfly one as well and I can't wait to rate it 5 stars. If I could give more stars, I would. Thank you. If I ever decided to get a real tattoo, I believe I would use her pattern for the artist to use. I am just stunned

at the detail and the beauty she provides. Thank you so much!

Look exact. Would buy again

only last one day its a waste of money!

I bought a bunch of these for a fund raising event based on the reviews. We actually sold these well! People were excited. They are really pretty designs but as far as a tattoo goes, they rub off VERY easily. My daughter and I were so disappointed. The tattoo looks awesome as soon as it is on. The first time, I just rubbed my finger lightly (after waiting a reasonable time and letting it dry) and it started easily coming off. The second time, I put it on my wrist area below the palm so it was not subjected to elements as much. I avoided "touching" it at all. After a day, again same thing, a small rub and the thing just disintegrated. So overall, the quality of the tattoo as it stays on is really bad. That is the reason I am giving it one star. I wish I got my money back. I spent over \$50 on these things. I should have tried them on first but I relied on the reviews (some of which said, they stay for 2 weeks!)

The picture on the website gives an impression of quite decent sized tattoos. So, I was shocked when this little thing arrived, with tattoos that are just one inch long. Real henna designs are usually 3-4 inches long, at least. I was planning these for adults on a Diwali party. But these are for little kids on little hands. No, not worth the \$1.35. Total rip-off.

I bought these for my friend's wedding now I have to admit I have had temporary tattoos before and by the end of the night they have already rubbed off or came off in the water. When I wore these tattoos I was so worried that they would be gone by the end of the night. They stayed on and didn't rub off. Even in water they stayed on.

I am extremely disappointed in this product. These "tattoos" are nothing more than the press-on kind for kids. There is nothing about that in the product description, and I said to read the reviews.
