Anyone interested in Dance music, is absolutely a must to read, never read anything like that before! I did not understand all in the equipment chapters because I am not very technical but It's still very interesting. Really great! Thank You". -By Dr. S Levi "I found the book to be a very interesting and appealing take on music writing in today's times. Quite thought provoking too. Worth the read!" -By Kindle Customer - James "Wasn't expecting this to be so deep. Enjoyed reading it in my kindle paper white, beautifully formatted. The illustrations were cute." -By Nisha "Insightful and powerful. I did not expect to learn so much from one reading, that I had to read it one again." -By Ray "Good read. An inspiring piece, beautifully written!" -By SC

Customer Reviews

Look no further for a purposeful read that will teach, inspire, and speak volumes of importance.

Music (obviously) is covered in this book and beyond-- not only theory but practice, intelligently written.

I am so amazed at the accomplishment this author has made and reading about how he did it was very informative.

Good read.

Not the biggest fan of EDM, have definitely dabbled in the more mainstream artists though. Book was recommended by a friend and it was actually really interesting to learn about music from this perspective. Would def recommend!

Great read! I definitely recommend it not just for people who are thinking of getting into music, but for anyone that is following a dream of any kind.

A must read book. Mechagen's music is superbly done and reading this book makes me feel that I was part of his struggles and triumph.
