Customer Reviews

I am Italian and my husband is studying Italian. He's now intermediate, and I'd say that it is a bit too easy for him. It's probably good, because it reads it more than if it required a lot of effort. The story is interesting enough to keep him entertained, but I wouldn't say it's very exciting. However, it's well thought, with footnotes for the most difficult words and constructions and space to write down notes. I'd buy another one in this series.

This is the second book that I have read from Cinzia Medaglia. Both have helped my study of the Italian language with contemporary and interesting stories. I look forward to reading more. Thanks to Cinzia!

My wife and I were able to find 1st and second semester Italian classes in the evenings. However,

getting beyond 2nd semester is a problem as these tend to only be offered in the day. While waiting for a solution, I got this book to read and to keep from forgetting all I had learned. It's written perfectly for this use. Funny story: I realized that I could use the Kindle dictionary feature to define words I didn't recognize. However...the definitions are in Italian. :)

I am studying Italian and enjoy reading Italian newspapers. *Un Amore per la tua Cucina* is the first Italian novel I've tackled. What fun. The book is not great literature, but the story is entertaining. My Italian vocabulary is not fantastic, but since this is an "Italian Easy Reader," I could understand the storyline and enjoy reading without constantly looking up words in my Italian dictionary. Now I'm looking for the next Easy Reader to buy, hoping that soon I'll advance to the next level of Italian novels.

This is the second book I read by this author, and like the first one - *Italian Easy Reader: Omicidio alla moda (Italian Edition)* - it is entertaining and useful for learning to read Italian. It made me hungry, too - it contains mouth-watering recipes, which sound even more delicious in Italian.

As a long time student of Italian I'm always on the lookout for Italian eBooks so I can improve my vocabulary. Some of the other reviews gave me the impression that this was at a higher level than it ended up being. On the plus side it was an easy read. I didn't need my dictionary one time and even the few English words they threw in (at least on my Kindle version) weren't needed. I would prefer something a little more challenging next time.

Well, I know it's Easy Reader. My complain is the quality of the stories.

I definitely preferred Medaglia's *Omicidio alla Moda*. This consisted of short stories, so the characters weren't flushed out as well. There were also a few typos...poor editing? That being said, the last story was, for me, the most interesting. I like murder mysteries. It was good for keeping fluent in Italian and strengthening vocabulary.
