Customer Reviews

It's definitely better than buying it for 100\$ at a bookstore or even online because of the print i guess. If you have no problems reading on your phone on the kindle app then its a 5/5. I bought this thinking i could use it on my windows tablet, apparently it has some sort of hate crime against windows kindle app though. Oh well, all in all best 20ish dollars i've spent on a book i hardly read.

Great cheap way to rent text book.

nice!!

Great condition

Book was in very good condition

I was glad to get the color version of this book. It adds a lot to understanding the text. This book is informative and fun to read. I was disappointed that one off the viewpoints did not include text from You Shi - can never understand why eBooks sometime omit text/pictures that are included in the print version. This version is \$50 more than the non-full color version, but the extra expense was worth it!

Good book...good condition

Great
