# Optical Crystallography (MSA Monograph Series)

## Synopsis

Book by Bloss, F. Donald

## Book Information

Series: Monograph Series

Hardcover: 239 pages

Publisher: Mineralogical Society of Amer (October 1, 1999)

Language: English

ISBN-10: 0939950499

ISBN-13: 978-0939950492

Product Dimensions: 1 x 7 x 10 inches

Shipping Weight: 1.4 pounds

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #712,043 in Books (See Top 100 in Books) #56 in [Books > Science & Math > Chemistry > Crystallography](#) #143 in [Books > Science & Math > Earth Sciences > Mineralogy](#) #24203 in [Books > Textbooks > Science & Mathematics](#)

## Customer Reviews

Book by Bloss, F. Donald

Contains both theoretical and practical aspects of polarized light microscopy useful for beginners to advanced levels of knowledge. This new edition incorporates a nice Michel-Levy chart foldout, a chapter on spindle stage of biaxial crystals, determination of asbestos fibers, a poem about isogyres, and useful information about refractive index liquids in addition to the edited previous chapters on light and crystals. This book is required reading in some forensic science microscopy classes.
