Customer Reviews

This cookbook is poorly written. There are grammatical errors every line that make it difficult to follow. Also, there are recommendations within the recipes that definitely cannot be good for UC sufferers and are contradictory. For example, the introduction says to use refined white breads instead of whole wheat and the first recipe calls for whole wheat tortillas. Not worth the money, I'm going to throw my copy away.

I wonder if she ever studied pathophysiology of UC.. White flour and sugar are definitely harmful to UC, as far as I know. And there are too little recipes.

Just outdated

Terrible book. Lots of grammatical errors and spelling mistakes. There are only a few recipes and nearly all of them have several ingredients that greatly irritate my husband's colitis. I have no idea how this book got published, and it is so expensive too! Do not buy, it is not helpful.
