Synopsis

SPECIAL FREE GIFT INSIDE 5 and a Half Hour AUDIO DOWNLOAD for PCThe ultimate 3 in 1 set to familiarize yourself with the Spanish language, learn the intricacies of the Spanish grammar in a fun way, become a fluent Spanish conversationalist and be completely equipped to visit Spain and enjoy the experience to the fullest. From learning the pronunciation of the Spanish ABC, to understanding the tricky male and female forms of many Spanish words, from comprehending verb conjugation and picking up Spanish pronouns, possessives, reflexives and other important grammar and vocabulary, to mastering fluidity in conversation, all lessons and audio are designed to help you immerse in Spanish modern culture with ease and speed. Not only will you be able to visit Spain as a tourist, you will be able to mingle with the locals and impress them with your command of the language and your knowledge of the real Spain. You will not find a better toolkit to learn Spanish comprehensive, fast and easily, and feel ultra-confident around Spanish-speaking people and Spanish territory, anywhere else.

Customer Reviews

I'm very grateful for this product. My mother in law is from Peru and speaks only Spanish. I don't know how to communicate with her. I feel bad because it's been 8 years! While I should have taken the time to learn the language, I spent my time bettering my education to obtain my degree and never really had the time. I do know a few phrases here and there, but it gets to be very awkward when all I can do is listen, try to figure out what she's saying, and only be able to look dumbfounded without a reply. I feel bad because I love her dearly and would love to be able to fluently communicate with her. This set is pretty interactive. Not in that it will answer you back (obviously), but you read through the lessons and take a short quiz at the end, in which you will write your selection chosen from the multiple choice list and later check to see if you were correct or not. From there, you can see which areas you need to study more, or which ones you don't. I know they say that English is the hardest language to learn, but I think they're wrong or I just haven't been getting it! After using this set to learn some Spanish, I can fluently understand and speak the beginning of a conversation in full effect. The thing hardest for me to fully understand is how the words change with the use of different pronouns. The way the text is set up with so many examples, it is making it so much easier than I previously thought. Even if I don't fully comprehend the language yet, I can reiterate some of the phrases to myself and their meaning to have a small conversation with my mother in law. I am catching on pretty quickly with this set though, and would highly recommend it! I also love that it's available for the Kindle or I can take it wherever and whenever I need to. I personally plan on using this along with the microphone translator app on my phone to get a better experience and hopefully retain the most information possible. The best part about this kit is that it comes with the free audible. Now I don't have to sit here and guess how the word is supposed to be pronounced, because I can hear the narrator pronouncing the correct form. That's pretty awesome for me. I received this 3 in 1 Spanish box set for free in exchange of my honest review. My reviews are always 100% honest, in place to assist potential consumers in making a decision, and reflect my own personal experience with the product.

I have this set on my kindle and enjoy spending 10 minutes a day doing some practice. There is a listening portion but I have not figured it out now had the time. I have taken 3 years of Spanish and integrated into the culture for 2 weeks spans, but I need something daily to keep my Spanish going and this is perfect. I have recommended this to high school students for summer practice so they

don't forgot what they have learned. When you start reading it, it is rather easy and comfortable to get into it. While you can read the pronunciation and they give you examples of what things sound like, I do feel having the verbal portion alongside for a new Spanish learner would be beneficial. The kindle version is perfect for me and staying up on my Spanish and learning more as I practice daily. While I received this Spanish learning book for my kindle at a discount for my honest and unbiased review, I choose what I want to review for myself and my family's interests. I also rely heavily on reviews for purchases I make and hope they are honest as well.

I purchased the "Best Learning Spanish 3 in 1 Box Set (Free Audible Inside): Learn Spanish In a Week and Become a Fluent Spanish Speaker" in the Kindle Edition. I have it on my Kindle PaperWhite, iPhone, and iPad Air. It looks best (clarity, color) on the iPad, but some words are consistently squashed together on all platforms so it's a production issue. I purchased this set to refresh my language skills, I've spoken Spanish intermittently over the last forty years. The grammar and conversation secretions are excellent, and easy to follow. I downloaded the PDF file via my iPhone and iPad, it is also well written and organized. I haven't had any luck downloading the audio file so cannot offer a review of its quality. And I can't get the download website to load on my Kindle?! I'll keep trying, and if I'm successful I'll update this review. There's also an option to download an audio course, and free for thirty day trial. Overall I think this is a good option for beginners, and/or someone like me refreshing their skill set but it's quite frustrating getting the downloads. I purchased the Best Learning Spanish 3 in 1 Box Set (Free Audible Inside): Learn Spanish In a Week and Become a Fluent Spanish Speaker for free in exchange for my honest and unbiased review. I do not guarantee a good review, I am a concerned consumer too.

I already speak most European languages so I always wanted to add Spanish. Not just that you have a great standing in the job market with speaking several languages but being able to talk and understand people in the country you're visiting was one of my personal reasons. I downloaded the eBook on my phone because I spent most of my time in the car driving. I also downloaded the additional audio part. So I mostly listen to it and repeat the words. When I come home I go through the book part to repeat what I was already listen to all day. After every lesson you can take little quizzes to see if you got it or if you should have a closer look at some parts. Due to that split of learning it will take me more than just one week to learn it but I'm already able to have a short conversation with my neighbor from Honduras and she seems to understand me :-)) I will definitely continue with this set and become a fluent Spanish speaker. I will recommend it to everybody who

wants to learn Spanish in an easy and fun way at their own pace and where ever they are.I received this product at a discounted rate in return for my honest and unbiased review.
