## Synopsis

How do you get started on the South Beach Diet? What is exactly this diet about? Learn all this and more with this short and simple guide. Today only, get this bestseller for just \$2.99. Regularly priced at \$4.99. Read on your PC, Mac, smart phone, tablet or Kindle device. Take a random poll of your friends, family and colleagues and you're bound to encounter at least a few people who are dieting, and they're all probably not following the same plan. There are countless diets out there -- so many that it can be difficult to figure out which one to follow. Among these, there are low-calorie diets, low-fat diets and low-carb diets. For a long time, the Atkins plan was the most famous of the low-carb diets. And then along came the South Beach Diet. The South Beach Diet has been around since the late 1990s. The diet was designed to be heart-healthy. As such, the South Beach Diet blends several methods together to try to make a healthful and realistic diet for those looking to lose weight. It's often compared to the Atkins Diet, since both tend to frown upon too many carbohydrates and both also run on a plan based on stages, or phases. But a closer examination of the South Beach plan will show some differences, particularly once you move on past the first phase of the program. This short guide was designed for beginners who want to get started with the South Beach Diet and learn the basic important thing about this topic. Now that you know how the diet got started, you're ready to learn the specifics of the plan, including what foods you can eat in each of the three phases. Read on to discover how the South Beach Diet plan actually works. After downloading this book you will learn...

## **Customer Reviews**

Very simplistic overview of the South Beach Diet. This book outlines the basics and for those who don't want to be boggled done with too much info this book is for you. You can get started losing weight on Phase 1 right away. Great book for beginners.

Seriously???? no meal menus, nothing substantial in this book. do not order. I just wasted money!

Good purchase,easy way to buy and read.

Good information for beginners

Useless. Just buy the book

Thankfully, I borrowed this "book" from the Prime library. It was more like a lengthy advertisement for the actual South Beach Diet book and contained little useful information. It did, however, pique my curiosity as to the actual diet. I'm trying to decide if I should get the book in Kindle or paperback format.

Giving a phase by phase description of the south beach diet! Great reading will help me get started in the right direction.

This was short and informative, it answered my questions about the diet. I would recommend it if you are looking for more information about the diet.
