## Customer Reviews

The New Testament (KJV) as read by James Earl Jones Oscar-nominated, Emmy and Tony award-winning actor James Earl Jones's rich vocals deliver a distinctive reading of the complete, unabridged New Testament. The Old Testament (KJV) as read by Jon Sherberg Jon Sherberg has worked with everyone from gospel star Scott Wesley Brown to Oscar-winner Sir Ben Kingsley. Here, he brings to life the entire Old Testament.

The CD's will not play properly. I have tried them on an older CD player and on a new CD player. They will play for a short while and then they skip over several minutes of play or else they will freeze up and quit working. I have tried several CD's and they are all the same. Before I bought them, I read several reviews that told about similar problems other people had had with the CD's. I decided to go ahead and get them thinking that if they didn't work, I would return them. I bought

these as a Christmas gift for my 93 year old mother-in-law who lives in Texas and unfortunately, before she could open them and attempt to play them, the 30 day return time ran out. I and numerous grandsons have attempted to play them on several different players and the same problems occur for everyone. Since this is a known problem, I think should replace them regardless of the length of time. 3/29/16 UPDATE: has refunded my payment. I give 5 stars for how they have taken ownership of this problem. I still give the product ZERO stars. I have placed an order for: the Holy Bible (King James Version) read by Scourby, Alexander. It cost more, but hopefully it will work!

Nice set but I was under the impression that the entire bible was going to be read by James Earl Jones. Only the New Testament is. I will listen to both readers and I'm sure I'll enjoy it. Got a surprise from my children. They surprised me with a larger set of an audible Bible and an echo dot.

It's full of errors, in that the tracks are not named correctly, they are in fact named HORRIBLY! The part fo the Bible that's printed on the CD isnt what's on the disc in most instances and when it is it's not accurate, the track names and CD names are also wrong and inconsistent. Disc 12 has the track names of Disc 1. You'd think the guys making something as big as a Bible audio collection would have some sort of pride in ensuring that what they sell to people is completely accurate.

I love this. I listen to it all the time it was very economical. Compared to others.. I give it 5 stars... It took me about 6 days to go to the New Testament. Then I started the Old Testament and absolutely love it the Old Testament. The Old Testament is 3 times larger than the New Testament and you realize that when you start listening to these CD.. The Old Testament would be next to impossible to keep interested in reading it.. But when you listen to it on CD its probably the best of all three spiritual books written. If there's a question that's unanswered in the New Testament or the Book of Mormon you will find the answer in the Old Testament.. The wisdom and street smart, that a person can gain from the Old Testament is unsurpassed. : )

Who ever published this cd set did a very poor job ! The labels on the cd`s seem to be correct , but if you play these on a windows 10 computer all the tracks are missed labeled , The first disk of the set all tracks are labeled for the book of Proverbs , even though you listen to it , it is as the label states on the disk the book of Genesis , disk 3 , same thing , tracks state Exodus , but the book of Genesis continues . I gave it 2 stars because you can listen to it . BUT I would not recomend this and deffinetly would not give this as a gift . should make the seller include this info in their item

discription .

Purchased for myself and transferred to a MP3 player an extremely disappointed to find that a large part of the "Old" Testament disc are mislabeled; many with the same track name such as disc 32. The New Testament section of this complete Bible set I couldn't be happier with, James Earl Jones did an amazing job plus "no" disc were mislabeled. One would have to devote a lot of time relabeling the Old Testament therefore I suggest purchasing a different version if you plan to download to your computer or MP3 player as it's extremely time consuming not to mention not what you paid for. Personally I feel everyone that purchased this set should be given an updated set of the Old Testament correctly labeled at no charge.....just saying! Shirley

I'm using this to listen on a Windows 10 PC. I simply use Windows Media Player, that comes with the Windows 10 Operating system and ripping the CD's to the harddrive. Thus far, I haven't encountered any issues with using these CD's as others have reviewed. This could be due to faulty CD media I'd think.

The Old Testament section is flawless (the pronunciations are awesome). James Jones's section was not edited properly (you could hear him breathing, you can hear where the sound guy inserted corrections). Jones was also reading too fast. Still it is a keeper. This seems like a huge project. Can we get the Apocrypha, book of Jubilees and Jasher now? :) Old Testament : 5/5 new testament: 3/5 overall: 4/5
