Customer Reviews

Lots of songs. Well made.

My daughter loves playing songs from this book. It's actually a little easier than we thought it would be, but it was fun for her to play Beatles songs without a lot of effort. Now she's eager to get a book that's a little more advanced!

Very nice way to start playing music from one of the greatest bands ever! Thanks for making it easy to play classics!

Good

excellent

When I started learning to play the guitar it was because I wanted to play Beatles music. I've been looking for awhile for an easy guitar songbook that was exclusively of their music. When I came across this songbook, I immediately ordered it. I received it on a Friday and was immediately able to recognize some of the songs as I played thru them the first time. The following Tuesday I was playing in the backyard with my amp turned down low enough that I thought that no one else in the family would be able to hear me, but I forgot about the open windows. As I was putting my equipment away, a few members of the family told me that they were able to hear me, so of course I asked if they recognized anything? Everyone I asked was able to recognize "Yellow Submarine." Let me tell you what an amazing feeling it is to make music that people can recognize. This songbook is exactly as advertised, for easy guitar. It has both the transcribed musical notation and guitar tab and lists the chords with a chord block at the top of the music. If you love John, Paul, George, and Ringo's music and are learning the guitar, get this book, you will not be disappointed!

Better choice than some with a good number of songs - still would like fold out pages on multi page songs. Some of the songs are very basic notes, and it hard to make then song good if you're a beginner like me. I've been practicing for about 4 months and there's about 4 or 5 song I can enjoy playing in the song book.

Item is as described. Arrived in a timely manner. Satisfied.
