Doodle Artist - Rabbits & Hares: A Colouring Book For Grown Ups

Synopsis

A colouring book designed for lovers of rabbits and hares, both pets and wild. This book contains twenty original images of rabbits and hares in various styles and differing levels of intricacy, with two copies of each image to make forty pages to colour. The images are printed on a single side of the paper to help prevent bleed-through. We recommend putting a sheet of paper or card between pages if using strong inks. The back of each page is marked with a cutting line to aid removal of pictures. Other books in this series include: Doodle Artist Butterflies, Doodle Artist Simply Snowflakes, Doodle Artist Fanciful Rats, Doodle Artist Peaceful Patterns, Doodle Artist Pets, Doodle Artist Dogs.

This is a beautiful coloring book filled with designs of rabbits and hares. What is great is that the artist has provided two each of every design. That way you can test your colors on one copy, color the image twice, or simply share the second copy with a friend. The designs have plenty of doodles drawn into the images to make coloring these rabbits and hares a fun and colorful experience. I love this style of drawing as it allows my imagination to take over and create fun and colorful animals instead of simply realistic ones. All of the design stop well before the binding. The designs are printed on one side of thin white non-perforated paper that is typical for books published by CreateSpace. The binding is glued but there is plenty of room for you to cut a page out if you choose to do so. All of my markers bleed through and my gel pens either bleed

through or leave a distinct shadow on the back of the page. My coloring pencils work well with the paper. I will use a piece of chipboard or heavy paper behind the page I am working on so I don't ruin the following page with leaking ink. While I could wish for thicker, perforated paper, it appears that this is the quality that comes from CreateSpace (which is an company.) What I really like about the CreateSpace is it is a way that independent artists can get their work self-published. That way, I get a huge choice of design styles albeit with not the best paper.

This is a wonderful colouring book for animal fans, especially those who love rabbits and hares. I already have the Butterfly colouring book by the very talented Annette Rand and am so pleased with this one. In a departure from the Butterfly one, this book has duplicate images to colour and is not as samey. Each image is not just a single rabbit. So you get 20 original illustrations and another 20 duplications. 40 pictures for a reasonable price, how wonderful! The rabbits and hares are lovely and you get a good variety of images, from single animals to mandalas and the rabbits/hares are in a nice range of poses. One thing to note is that if you like lots of highly intricate designs then this book may not be the best choice. I personally am quite happy to colour in not particularly intricate illustrations, and there is a enough of a variety of simple to more intricate designs to keep me happily occupied. It is relaxing, imaginative and very high on the cuteness factor! One thing that does let the Doodle Artist range down a bit is the quality of the paper which is rather average. It is not terrible but I always prefer nicer paper as it makes the colouring experience more enjoyable and I end up a bit more satisfied with the results. However each image is on a single page so there is no risk of ruining another image. I often switch between pencils and fineliner pens when colouring, with some gel pens added into the mix too, and all work nicely in this book. Each page has a scissor line too which is handy if you want to cut out your works of art ;) Overall I would recommend this to anyone looking for lovely drawings to colour.

This coloring book has 40 pages but contains only 20 drawings. The designs repeat so you can try different color schemes or share with a bunny-loving pal. I liked maybe 2/3 of the drawings, some of them were just a little weird, IMHO. Other people may enjoy the weirdness. What I did like about the drawings is the detail isn't so tiny that you have trouble coloring anything. You will want to put cardboard or newspaper behind the page if using markers to color. I am paid by a survey company with gift cards, so I'm not out-of-pocket. This was an impulse purchase because I like rabbits. Rabbits & Hares is suitable for ages 10 and up.

This is one of my favorite coloring books for adults. It has intricate but not intimidating designs within the excellent drawings of rabbits. Each page is a joy to color! Rabbits are one of my favorite subjects to color so I was tickled with the beauty and sophistication of this well developed and designed book. This would make the perfect gift for any lover of bunnies who also enjoys coloring. It is well worth your money and your time. Two thumbs up!!

This is such a pretty book. I bought it for a pregnant granddaughter-in-law who raises therapy rabbits...to give her something to do while she waits. She loves it.

Very usual coloring book. If you are looking for something enjoyable however a little different I would recommend this book. It is more targeted to a someone who has a lot of patience as the areas are small. After saying this, the results are beautiful!

When I bough this, I wasn't aware that this was two copies of each image, so I was a little disappointed at first, then I realized that now I would have the opportunity to do each image two different ways or share with a friend! Nice quality paper, but they don't tear out very easily despite appearing to be scored for it.

This book is exactly what I was looking for! I love rabbits so this quality coloring book fit the bill! What is also nice is that there are two of every picture so you can go a little wild!
