Customer Reviews

It is very interesting to know that we somehow had used our third eye without realizing it. This book enlightened me on my misconception of the uses of our third eye and how this could be use to enlivened our lives. I am delighted to have read this book as it gave me new knowledge about this topic. And recommended this to people who are fond of this subject.

I never really thought that I would read this kind of book. However, I find this and the cover was good and artsy enough to get my attention. There are lots of realizations that I got from this book. Including the fact that everyone has a third eye. I thought only special ones have that. It's just a matter of belief and willingness to activate it. In my case though, I am still not convinced on why i should because I don't wanna ruin my life with ghosts or whatever.

This is a very informative and engaging book. The author describes the third eye in a way that is easy to understand. In first two chapters you will learn all the general things about the third eye and in continuation, the book goes into how to open the third eye. What I found very interesting is the importance of your diet for opening the third eye. This is overall an amazing book that will help any beginner to understand and open the third eye.

This book is a great intro for all of us to awaken our third eyes. It's possible for anyone to pick this up and learn right away, but I think beginners would benefit most from this book. I definitely feel a difference with my peace and connection with the universe after utilizing the techniques in this book!

The first time i read this book makes me amaze how can you awaken your third eye, it can be useful for other person to open thier third eye, i wonder what will be their feeling when they see what other people can't see. I will think about it if i will try opening my third eye. A very interesting book for opening your third eye.

This book caught my attention when searching books to read. It is not surprising that many people consider third eye as fictional concept and don't take it seriously, but consider to read this book and discover the scientific explanation of it. Glad to have this because I've learned something new.

I am excited to learn about awakening third eye so then I found this book which is conceptual based. The author illustrated in this book that with the awakening of the third eye you will come to

know about psychic abilities that you possess. I personally consider this thing that opening third eye means maintaining an adorable life and through it achieving the good results.

outstanding
